Von der Freiheit des Migranten

'Die Migration ist eine kreative Situation'. Vilém Flussers Kommunikations- und Medienphilosophie, die nicht für Einheit, sondern für Vielfalt, nicht für 'Wiedervereinigung', sondern für vernetzte Streuung plädiert, hat hier ihren Ausgangspunkt. Flusser setzt sich mit Phänomenen des Vertriebens, der Migration und des Nationalismus auseinander. Mit ebenso viel Nachdrücklichkeit wie Witz und Scharfsinnigkeit legt Flusser sein Denken dar, dass auf Erfahrungen basiert, die stark in der Biographie des Kommunikationsphilosophen verwurzelt sind. Die mit Migration verbundene Freiheit formuliert Flusser in Verantwortung um. Dazu bedarf es einer neuen Denkart, zu der Vilém Flussers Texte und Schriften anregen.

Von der Freiheit des Migranten

Inmitten des gegenwärtigen Weltenbrandes liefert Leitners Tagebuch notwendiges Löschmaterial noch und noch. Führt uns satirisch, kenntnisreich und menschenfreundlich durch Jahrhunderte und Jahrtausende und sämtliche Kontinente. Stellt sich couragiert ohne Ansehen der Person den Mördern in allen Parteien permanent in den Weg und denen, die sie wählen. Berichtet wahrheitsgemäß von Menschen sonder Zahl, die schicksalhafte, quälende, lebenszerstörende Vorgänge durchbrachen und Unglück in Glück zu drehen vermochten. Bis heute jetzt da hier. Von großen Namen und von noch größeren kleinen. Es geht alles gut aus. Wahrheitsgemäß eben.

Fluchtlinien der Sprache(n)

Timo Carl presents alternatives to curtain wall facades and other flat boundaries creating autonomous spaces. He investigates facade typologies with multiple material layers to strategize the relationship

between buildings and their environment. By revisiting Le Corbusier's seminal *brise soleil* an alternative reading of the modern project emerges: one that is not based on classical compositional rules, but instead on the dynamic relationships with environmental forces. Finally, an exciting series of project-based investigations sets out innovative ways in which novel deep skins combine energy-conscious performance with the poetics of architecture.

Ich zähle jetzt bis drei

Dieser Band widmet sich Literatur und Künsten, die im Paris der Jahre 1917–1962 entstanden sind. Ausgangspunkt ist die Überzeugung Vilém Flussers, dass Migrationserfahrung und kulturelle Innovation engzuführen sind. Frankreich wurde in der Zwischenkriegszeit das zweitwichtigste Einwanderungsland der Welt nach den Vereinigten Staaten. Autorinnen und Autoren gelangten aus dem östlichen Europa, nach dem Erstarken der Faschisten aus Italien, nach 1933 aus Deutschland, nach dem Spanischen Bürgerkrieg sowie nach der Konsolidierung des Estado Novo in Portugal in die französische Metropole. Auch Künstlerinnen und Künstler aus Lateinamerika waren in Paris präsent, und der Congrès international des écrivains pour la défense de la culture im Juni 1935 machte die Stadt zum Zentrum des geistigen Widerstands gegen den Faschismus. Aber auch nach dem Zweiten Weltkrieg migrierten Schriftstellerinnen und Schriftsteller aus aller Welt nach Frankreich. Die Beiträge berücksichtigen neben nahezu allen Sprachen der Romania auch die arabisch-, hebräisch-, deutsch-, russisch- und polnischsprachigen Literaturen. Dieser komparatistische Zugriff vermag ungewöhnliche Perspektiven, Zusammenhänge und Bruchlinien offen zu legen.

Deep Skin Architecture

Ausgehend von der These, dass Literatur im 21. Jahrhundert in vielfacher Weise durch das Phänomen der Wanderung geprägt ist (von der Thematisierung von Migration bis zur beschleunigten ‚Wanderung‘ von Texten über Sprach- und Nationalgrenzen hinweg) stellt der aus einer internationalen Tagung an der Universität Mainz hervorgegangene Band die Frage, wie die Komparatistik auf die zügig sich verändernde literarische Welt reagieren soll. Das aus der Übersetzungstheorie Schleiermachers entlehnte, jedoch neu akzentuierte Konzept der „fremden Ähnlichkeiten“ bietet vielfältige Möglichkeiten, Antworten auf diese Frage zu finden – sowohl auf der Ebene der literaturtheoretischen Reflexion wie auch durch den konkreten Vergleich spezifischer literarischer Texte.

Migration und Avantgarde

Im Buch werden die Biografien von sechs Migrantinnen rekonstruiert und das komplexe Zusammenspiel von Migration, Ethnizität, Geschlecht und Bildungsbiografie untersucht.

Fremde Ähnlichkeiten

Geduldete Flüchtlinge und Asylsuchende sind nach wie vor vielfältigen Ausgrenzungsmechanismen ausgesetzt, wenngleich europäische Initiativen zur Verbesserung der Arbeitsmarkteteiligung, Förderprogramme des Bundes und die Bleiberechtsregelungen neue Perspektiven eingeleitet haben, die sie in integrationspolitische Maßnahmen einbeziehen. In der Debatte über inklusive Konzepte zur (Berufs-)Bildungs- und Integrationspolitik bleibt diese Gruppe der nach Deutschland Zugewanderten meist außen vor. Der Band richtet sich an Multiplikatorinnen und Multiplikatoren aus Wissenschaft, Praxis und Politik im Bereich Bildung, Arbeitsmarkt sowie der Sozialen Arbeit. Um zum Diskurs über gesellschaftliche Teilhabegerechtigkeit beizutragen, werden aus der Perspektive der Forschung, Politik und Projektpraxis Chancen und Problemlagen zu verschiedenen Arbeitsfeldern im Kontext der beruflichen Integration von Flüchtlingen thematisiert. Integrationspolitische Bezüge werden unter den Vorzeichen politischer Rahmenbedingungen reflektiert sowie zukunftsweisende Netzwerkstrukturen am Beispiel des Standortes Hamburg illustriert.

Bildungserfolg und Migration

Die Monographie untersucht Sprachkonstellationen in der Literatur des Exils aus NS-Deutschland seit 1933. Im Fokus stehen mehrsprachige Texte von Hilde Domin, Mascha Kaléko und Werner Lansburgh. Die Kombination eines kulturwissenschaftlich geprägten Übersetzungsbegriffs mit Ergebnissen linguistischer Mehrsprachigkeitsforschung macht zwei höchst aktuelle Wissenschaftsdiskurse für die Analyse von literarischen Textphänomenen produktiv. Die Untersuchung erweist, dass die Texte Domin, Kalékos und Lansburghs durch Sprachreflexion, Code-Switchings und Sprachmischungen

bestimmt sind. Die Vorstellung einer monolingualen Literatursprache und Nationalliteratur wird dadurch infrage gestellt und es zeigt sich, dass die meist biografisch argumentierenden Vorstellungen von Sprachbewahrung und Sprachverlust im Exil durch alternative Entwürfe von Exilliteratur als translingualem und translationalem Reflexionsraum zu ergänzen sind.

Inklusion auf Raten

Lampedusa ist zum zentralen Symbol undokumentierter Mobilität im Mittelmeer und der europäischen Grenzen der Gastfreundschaft geworden. Heidrun Friese gibt Einblick in historische Semantiken der Gastfreundschaft und Perspektiven der Kulturwissenschaft sowie der Philosophie und konfrontiert diese mit den Praktiken der Aufnahme von Bootsflüchtlingen. Deutlich wird, dass Mobilität, die Deklaration des permanenten Ausnahmezustands und die Migrationsindustrie einen transnationalen politischen Raum schaffen, in dem sich Interessen, Dissens und Partizipation artikulieren. An der Schnittstelle zwischen Anthropologie und Kulturwissenschaft verbindet die Studie langjährige Feldforschung und dichte Beschreibung mit jüngsten Diskussionen um Gastfreundschaft und plädiert für einen lokalisierten Kosmopolitismus.

Sprache im Exil

Auch wenn Paris nach wie vor Zentrum des Literaturbetriebs und (Exil-)Wohnsitz vieler Autoren ist, nehmen französischsprachige Romane und Filme im 21. Jahrhundert auch andere, außereuropäische Metropolen und urbane Grenzräume in den Blick. Globalisierung, Gewalt und Migration sind dabei die zentralen Themen. Die Beiträge in diesem Band untersuchen solche metropolitanen und urbanen Räume als Orte neuer und dynamischer Konfrontationen.

Grenzen der Gastfreundschaft

This volume gathers together research by ten scholars engaging with multicultural discourse in Australia and Germany. The term 'polyculturalism' rather than 'multiculturalism' is employed deliberately to re-open a space in which the workings of discourse on culturally diverse societies, both as archive or practice, and as intervention, can be considered in greater depth. The inter-cultural perspective and wide range of disciplinary affiliations exhibited by the essays in this volume contribute to this goal: whereas the majority of discourse analytical work addresses the diversity of speaking positions, as well as the arbitrariness of ascribed meanings, within a historical framework delimited by national boundaries and disciplinary boundaries, the texts collected here transgress this perspective in working comparatively between Australia and Germany.

Nicht nur Paris

Flussers Schriften begründen eine andere Art zu denken: ein polyglottes Philosophieren zwischen unterschiedlichen Sprach- und Diskurswelten. Sein Werk ist jedoch, vor allem in Deutschland, von einem einseitig medientheoretischen Standpunkt aus rezipiert worden. Der Erfolg von Internet und den Neuen Kommunikationstechnologien in den frühen 90er Jahren hat sein deutschsprachiges Spätwerk zwar berühmt gemacht, dadurch aber auch eine Rezeption anderer Facetten seines Oeuvres erfolgreich verhindert. So gilt es, unterschiedliche Persönlichkeiten in Flusser noch zu entdecken: den Essayisten, Kulturanthropologen, Phänomenologen, Ironiker und Fabelnerzähler. In dieser ersten Gesamtdarstellung begegnet Guldin der voreiligen medientheoretischen Kanonisierung, die einer Zähmung von Flussers unkonventionellem Denkstil gleichkommt, mit einer Neulektüre. Im Mittelpunkt steht dabei das Thema der Übersetzung, das für Flussers Leben, sein Philosophieren und seine schriftstellerische Praxis von zentraler Bedeutung war. Polyculturalism and Discourse

Die BRD wird entweder als das Ergebnis einer politisch und zivilgesellschaftlich gelungenen deutschen Integrationsgeschichte der Deutschen in den Westen erzählt oder (aktuell) als eine postmigrantische Gesellschaft bestimmt. Doch keine der beiden Gegenwartsbefunde kann erklären, wie aus Deutschland seit dem Zivilisationsbruch eine Einwanderungsgesellschaft geworden ist. Dabei gibt es eine Geschichte zur Einwanderungsgesellschaft – sie wurde nur noch nicht geschrieben. Ihre Spuren

findet man in der Literatur, im Film, in Integrationsdebatten, sozialwissenschaftlichen, soziologischen Arbeiten, in Integrationstheorien und auch in juristischen Diskussionen seit Beginn der Migration in die Bundesrepublik. Narrative der Migration bringt genau diese Aspekte, Sedimente und Bereiche in ihrer historischen Folge in einen Zusammenhang und macht die Kulturgeschichte der deutschen Einwanderungsgesellschaft sichtbar. Sie ist geprägt von gestörten Kommunikationen, abgebrochenen politischen Prozessen, von sich wandelnden Begegnungsstrukturen und Praktiken. Als ein wichtiger Teil der Gegenwart eröffnet sie einen Blick auf informelle Beziehungen und Potentiale, die bislang kaum Beachtung gefunden haben.

Philosophieren zwischen den Sprachen

Das interdisziplinäre Jahrbuch widmet sich der Erforschung der Bedingungen, Erscheinungsformen und kulturellen Reflexionen des Exils. Programmatisch ist eine Perspektive auf die Besonderheiten der Zwangsmigration, ihrer Erfahrungsdimensionen und kulturellen Artikulationen. Das Kernthema Flucht und Exil infolge der nationalsozialistischen Diktatur wird mit der Erforschung anderer, auch gegenwärtiger Exile verbunden.

Narrative der Migration

Der politische Umgang mit Migrant*innen und Geflüchteten stellt die europäische Gemeinschaft und insbesondere Einwanderungsländer wie Frankreich vor drängende Fragen. Die zunehmende politische Verwaltung des Lebens scheint sich im Kontext von Migrationsphänomenen besonders deutlich zu manifestieren, was in der Ästhetik zeitgenössischer Migrationsliteratur durch spezielle Erzähltechniken zum Ausdruck kommt. Christina Grieb-Viglialoro untersucht mit einem interdisziplinären Ansatz exemplarisch an französischsprachigen Texten, wie Literatur die Relationalität zwischen Biopolitik und Migration verhandelt und inwiefern sie einen Beitrag zu einschlägigen gesellschaftlichen Debatten leisten kann.

Exil, Flucht, Migration

Ende der 1990er Jahre erschüttert der kriegerische Zerfall Jugoslawiens das 'Friedensprojekt Europa'. In der politischen Narration findet der Begriff 'Balkan' im deutschsprachigen Raum medial nun vornehmlich Verwendung zur Beschreibung eines als Problemregion verhandelten Teils des Kontinents, der mit den Jugoslawienkriegen seine Utopie eines Kontinents ohne Krieg verliert. Ausgehend von dieser Marginalisierung des Balkans gewinnt die Frage an Bedeutung, wo dieser eigentlich beginnt. Im Zuge der Diskussionen dieser Frage wird mit Landkarten und Grenzziehungen argumentiert, die es de facto nicht gibt. Dennoch haben sich derartige Mental Maps in politische wie auch in literarische Diskurse eingeschrieben. Zu prüfen ist, ob solche projektionsreichen Bilder in der deutschsprachigen Gegenwartsliteratur fortgeschrieben oder aber aufgebrochen und umgeschrieben werden. In textnahen Lektüren zeigt Im literarischen Grenzland Europas?, wie Juli Zeh in *Die Stille ist ein Geräusch* (2002), Saša Stanišić in *Wie der Soldat das Grammophon repariert* (2006) und Marica Bodrožić in *Das Gedächtnis der Libellen* (2010) tradierte Imaginationen des Balkans als Krisengebiet unterlaufen. Ausgehend von einem weit gefassten Exilbegriff und unter Bezugnahme kulturwissenschaftlicher Forschungsansätze lässt sich erkennen, wie in den untersuchten Prosatexten Denk- und Handlungsräume entfaltet werden, die als transkulturell und transnational zu bezeichnen sind. Die drei Gegenwartsromane enttarnen den Balkan als ein mentales Konstrukt Westeuropas. Ebendieses Konstrukt erfährt im Kontext aktueller politischer Debatten um Geflüchtete und die geschlossene 'Balkanroute' eine rhetorische Renaissance. Hier knüpft die vorliegende Studie an und legt mit der beispielhaften Analyse deutschsprachiger sowie dem Verweis auf angloamerikanische Texte eine zeitgenössische Kartografie Europas vor, die den Balkan ins Zentrum (des Erzählens) stellt.

Literatur zwischen Biopolitik und Migration

Die Studie rekonstruiert die Entstehung und die Transformation des Begriffs ‚Heimat‘ vom späten 18. bis zum frühen 20. Jahrhundert. Sie durchläuft dabei unterschiedliche Diskursfelder der Religion, des Rechts, der Pädagogik, der Volkskunde und der Philologie, räumt aber der Literatur für deren Verknüpfung und für die Konstruktion, die Apologese und die Kritik der Heimat eine besondere Stellung ein.

Im literarischen Grenzland Europas?

Die Maßnahmen, mit denen Flucht- und Wanderungsbewegungen in der 20er Jahren eine neue Verortung erfahren, reichen von der statistischen Erfassung über paß- und Visumsbeschränkungen bis hin zur "Konzentration" in Internierungslagern. Die Rekonstruktion der diskursiven Prozesse in Wissenschaft, Politik und Medien macht erkennbar, wie in diesem Feld politische und kulturelle Dispositionen entstehen, die sich in den 30er und 40er Jahren verhängnisvoll auswirken. Mit der symbolischen Konstruktion des Nomadischen und seiner Verwerfung stabilisiert sich jene Symbolik der Krise, die die Weimarer Republik mehr oder weniger kontinuierlich durchzog und als Katalysator des Antisemitismus funktionieren konnte. Exemplarische Analysen zeigen, daß auch die Literatur in je spezifischer Weise auf die diskursive Konstellation der Wanderungsbewegungen Bezug nimmt - von unterschiedlichen Figurationen antinomadischer Wanderer bis hin zu J. Roths "Text-Räumen des Nomadischen" und S. Kracauers Ästhetik der "Zerstreuung".

Geschichte der Heimat

Das 19. Jahrhundert sei „wohnsüchtig“ gewesen, diagnostizierte Walter Benjamin einst. Das „Raumgefühl“ (August Schmarsow) dieser Epoche prägt das literarische Werk Thomas Manns. Die Studie deutet Manns literarische Raumentwürfe nicht biographisch oder textimmanent, sondern begreift sie als Versuchsanordnungen zur materiellen Kultur, denen diskursanalytisch, wissensgeschichtlich und ideologiekritisch auf den Grund zu gehen ist. Dazu werden die in einschlägigen Werken Manns entworfenen Raumsemantiken in genauen Textlektüren profiliert: Die Arbeit untersucht etwa die Buddenbrooks im Hinblick auf zeitgenössische Diskurse um Interieurs und bürgerlichen Lebensstil; sie geht dem spatialisierten „Feindbegriff“ (Reinhart Koselleck) des Barbarischen im Zauberberg nach und analysiert Topographien der Exilerfahrung in Joseph und seine Brüder. Ihr spezifisches Erkenntnisinteresse ermöglicht neue Einsichten auch zu vermeintlich „ausinterpretierten“ (Helmut Koopmann) Texten.

Nomadische Bewegungen und die Symbolik der Krise

Vom Ende des 19. Jahrhunderts bis in die 1920er-Jahre war Paris das Ziel zahlreicher Einwanderer aus Osteuropa, von jüdischen Pogrom- und Armutsflüchtlingen bis zu russischen, teils bürgerlichen und aristokratischen Revolutionsflüchtlingen. Michael Esch zeichnet ein dichtes Bild ihrer Lebenswelten. Dabei zeigt er, wie sie ihre "Integration" je nach Milieu sehr unterschiedlich gestalteten, wie sie ihre Differenz und ihre Anwesenheit legitimierten und wie ihr Verhältnis zur Mehrheitsgesellschaft war. Er gewährt damit Einblicke in den Prozess des Einheimisch-Werdens, die auch für heutige Debatten aufschlussreich sind.

Ankommen in der deutschen Lebenswelt

Der seit einigen Jahren zu beobachtende Anstieg deutschsprachiger Literatur von AutorInnen osteuropäischer Herkunft wirft Fragen nach dem spezifischen Beitrag dieser AutorInnen zur deutschsprachigen Literatur, aber auch nach der Wirksamkeit des Konstrukts ‚Osteuropa‘ in der Wahrnehmung von Literatur auf. The increase in German-language literature by authors originating from Eastern Europe that can be observed in the last years raises questions about the specific contribution of these authors to German-language literature, but also about the effectiveness of the construct 'Eastern Europe' in the perception of literature.

Raum und Interieurs in Thomas Manns Erzählwerk

Es ist ein Zeichen ausgeprägter Individualität, wenn das kompositorische Denken und Schaffen von Sidney Corbett (*1960 in Chicago) sich nicht so einfach auf einen Nenner bringen lässt. Eine Individualität, die sich in einzelnen klanglichen Ereignissen ausdrückt und Corbetts Werke in ihren vielfältigen Erscheinungen durchformt, sei es als Opern und Vokalmusik, sei es als Orchester- und Kammermusik. Dabei setzt sich die individuelle Gestalt der Werke niemals – weder auf partikulärer Ebene noch in der Totale – dem bloßen Verdacht der Subjektivität aus, weil Corbetts Musik immer auch philosophisch und literarisch reflektiert einen Bezug zur Welt herstellt.

Parallele Gesellschaften und soziale Räume

Die Studie unternimmt am Beispiel des deutschsprachigen Exilromans zur Zeit des ‚Dritten Reichs‘ den Versuch, die Ästhetik des Komischen als Teil einer modernen Exilpoetik zu etablieren. Sie berücksichtigt dabei das gesamte Spektrum komischer Schreibformen von der Satire über den Humor bis hin zum Grotesken, zum Pikaresken und zum Witz. In drei historisch-systematischen Grundlagenkapiteln

und drei Fallstudien zu Alfred Döblin, Veza Canetti und Albert Vigoleis Thelen erfolgt die Analyse der Funktionen, Potentiale und Grenzen dieser komisierenden Erzählverfahren. Der Band versteht sich als Beitrag zur Rehabilitierung der komischen Dimension der Exilliteratur bzw. überhaupt erst zur Kenntlichmachung des Komischen als ernstzunehmender Schreibstrategie im Exil.

Mühlroser Generationen

Eröffnen kulturelle, sexuelle, ökonomische oder geschlechtsspezifische Differenzen emanzipatorische Perspektiven für Einschlüsse und Ausschlüsse in Gesellschaften? Jenseits symbolischer Markierungen widmet sich dieser Band der Kritik an unterschiedlichen Formen globaler und struktureller Herrschaft. Aus geschlechterkritischer, kulturkonstruktivistischer und queerer Perspektive thematisieren die Beiträge u.a. die Positionierung von Migrantinnen und Migranten, die Lage der »Sans Papiers«, soziale Aufstiegsstrategien von Minderheiten, Systeme globalen Hungers, die ökonomische Ausgrenzung von Frauen oder die Protestbewegungen für die Ehe gleichgeschlechtlicher Paare.

Auf der Suche nach hybriden Lebensgeschichten

Der Wind ist fast immer und überall in irgendeiner Form anwesend, er umspielt und umfasst uns von allen Seiten und versetzt unsere Welt in stetigen Austausch. Rainer Guldin wirft einen philosophischen Blick auf das Phänomen Wind und zeigt, wie eng unsere körperliche und emotionale Eingebundenheit in die uns umgebende Wetterwelt eigentlich ist. Der Wind ermöglicht eine Erweiterung und Reorientierung unserer Wahrnehmung auf das Ungreifbare und Fluide, aber auch das Grenzüberwindende hin: So entsteht eine Erkenntnistheorie der Unberechenbarkeit und Verbundenheit, die Dualismen zu überwinden versucht. Das Buch spricht nicht nur Philosoph*innen an, sondern auch Laien und Forschende verschiedenster Disziplinen.

Migrationsvordergrund – Provinzhintergrund

Räume eine materielle und eine symbolische Komponente haben. Die AutorInnen akzentuieren unterschiedlich den einen oder anderen Aspekt. In diesem ersten Teil betont Martina Löw die Unterscheidung verschiedener Raumvorstellungen. Jutta Ecarius untersucht altersspezifische Sozialräume. Christina Schües analysiert die Grenzziehung zwischen öffentlichen und privaten Räumen im Kontext von Erziehung. Gabriele Geiger nimmt Materialisierungen von Raum, Reinhard Hörster Heterotopien zum Ausgangspunkt ihrer/seiner Überlegungen. Der zweite Teil ist stärker empirisch aufgebaut und bezieht sich daher auf unterschiedliche Raum-"Ausschnitte": Mediale Räume im Vergleich zu realen Räumen, Stadt und Land. Während sich Birgit Richard/Heinz-Hermann Krüger jugendspezifischen Räumen zuwenden, richtet Christine Ahrend ihr Augenmerk auf kindliche Räume. Ingrid Breckner/Gabriele Sturm diskutieren die Bedeutung und Möglichkeiten räumlichen Verstehens für Lernprozesse. Burkhard Fuhs stellt sich die Frage, wie die erziehungswissenschaftliche Kindheitsforschung mit den Begriffen Stadt/Land arbeitet und inwieweit diese in die pädagogische Theoriebildung einfließen. Dieses Buch kann nur ein Anfang sein. Immer wieder stoßen die AutorInnen auf das Problem, daß die theoretischen Überlegungen zu Raum ungenügend sind, insbesondere dann, wenn Veränderungen erfaßt werden sollen. Aber auch die Notwendigkeit empirischer Forschung wird deutlich. Wenn es mit diesem Buch gelingt, den Eindruck zu verunsichern, daß die Zeit fort schreitet, "während Raum nur herumlungert" (Massey 1993, 118) und damit Neugierde auf Raum als Prozeß zu wecken, dann sind wir zufrieden. Unser Dank geht an Jutta Guldenpfennig, die einen Teil der Texte Korrektur gelesen hat, und an Sergej Stoetzer für die Formatierung.

MUSIK-KONZEPTE 198: Sidney Corbett

Markus Schroer plädiert in seinem neuen Buch für eine umfassende Ausweitung der soziologischen Denkzone angesichts der Herausforderungen des Anthropozäns. Dieses ist nicht bloß der Begriff für ein neues geologisches Zeitalter, sondern steht für eine umfassende Infragestellung des bisherigen Selbstverständnisses des Menschen und seiner bisherigen Auffassung von Natur, Kultur und Gesellschaft. Geozöologie untersucht unter Rückgriff auf klassische und aktuelle Texte, wie Böden, Steine, Berge, Meere, Pflanzen, Tiere und Menschen in wechselnden Nachbarschafts-, Konkurrenz- und Kooperationsbeziehungen die Erde als Raum des Lebens gestalten.

Design Dispersed pursues the complex and heterogeneous connections between migration and design in the 20th and 21st centuries. The edited volume gathers contributions by international researchers and curators on the question of how design practices and (historical) objects articulate, respond to and critically reflect on migration, flight and displacement: Besides a collage which highlights the aesthetic effects resulting from the networking, overlapping and mixing of forms, another strand of the book looks at the political and social dimensions of design. How are design objects material modes of a critical inquiry on movements of people and things? What role do object trajectories play in the émigré movements of the 1930s and 1940s? Other texts follow the question of how migrants and refugees form their experience and political fight for acceptance into design and architectural productions. A final essay contributes to wordings and projections - what vocabulary do we need in order to adequately think and write about a design dispersed?

Differenzen leben

Em um dos vários encontros mundiais sobre a obra do filósofo tcheco-brasileiro Vilém Flusser (1920-91), os autores deste livro decidem escrever juntos uma introdução a seu pensamento que ao mesmo tempo homenageie o pensador. Nasce daí Vilém Flusser- uma introdução, obra publicada em três línguas - português, inglês e alemão. A primeira edição a sair é justamente a edição brasileira da Annablume, contemplando o país e a língua que acolheram Flusser, em 1940, quando ele fugia da barbárie nazista.

Philosophie des Windes

Dietmar Wetzlar unternimmt eine diskurskritisch-vergleichenden Lektüre zweier Theorielinien der neueren Sozialphilosophie: identitäts- versus alteritätsorientierte Konzepte. Das Denken des Ethischen und des Politischen wird dabei anhand einer Beschäftigung mit Schlüsselbegriffen, Konstellationen und Figuren der Gegenwartsgesellschaft thematisch an Gerechtigkeit, Geschlecht, Dritte(m) und Gemeinschaft ausgerichtet. Soziologische Essays, dem Intellektuellen, der Hausfrau, dem Grenzpolizisten und dem Flüchtling gewidmet sind, komplementieren die Analysen. So kann gezeigt werden, daß differenztheoretische Positionen (Lévinas/Derrida) den Begriff der Gerechtigkeit um Aspekte der Fürsorge und der moralischen Gefühle erweitern müssen (Benhabib, Cornell). Da im Übergang der Ich-Anderer-Beziehung zu "ordentlichen Bezügen" das Dritte eine grundlegende Rolle spielt, läßt sich Gemeinschaftsbildung nicht mehr im Sinne natural bzw. religiös begründeter Nachbarschaft (Kommunitarismus), sondern nur als stets neu zu legitimierende und variierende Kultivierung von Andersheit begreifen.

Hybride Kulturen

Um das Verhältnis zwischen Migration und Gesellschaft neu denken zu können, kehren Marc Hill und Erol Yildiz etablierte Gewissheiten um und beziehen die Erfahrung von Migration mit ein. Ihr Fokus richtet sich auf geteilte Geschichten, aus denen sich die Vielheit des urbanen Zusammenlebens erschließt. Migration wird so zum Ausgangspunkt weiterer gesellschaftlicher Analysen gemacht. Postmigrantische Visionen fungieren als Analysekatogorien für soziale Situationen von Mobilität und Diversität, machen Mehrdeutigkeit und marginalisierte Erinnerungen sichtbar, die zentrale gesellschaftliche Verhältnisse artikulieren. Kontrapunktische Ideen werden ins Blickfeld gerückt, ohne jedoch Dominanzverhältnisse und strukturelle Barrieren zu übersehen. Dieser Reader enthält Beiträge u.a. von Wolf-D. Bukow, Naika Foroutan, Wladimir Kaminer, Tunay Önder, Regina Römhild und Mark Terkesidis.

Hoarding in Older Adults - Research on Aging - Hoarding in Older Adults - Research on Aging by University of California Television (UCTV) 131,228 views 10 years ago 1 hour, 13 minutes - Catherine Ayers, PhD discusses the treatment of hoarding disorder in older adults. Learn about new interventions and how to help ...

And People Have Very Strong Reactions about Even Having To Throw Out some of these Possessions so There's Very Strong Emotional Attachments to these Items so It's Not As Simple as Just Cleaning Things Up and Moving Forward so the Interesting News Is that Hoarding Disorder Has Just Recently Become an Official Disorder in Our Mental Health Handbook so Our Diagnostic and Statistical Manual for Mental Disorders Hoarding Disorder Is Now a Part of that It Wasn't before So We Really as Researchers Didn't Know How To Treat It Was Treated as More of a Symptom or Something That We Just Didn't Know How To Categorize

So Again It's Not As Simple as Simply Throwing Something Out and Parting with It It Causes a Great Amount of Distress People Often Don't Know What To Do with the Item or It Just Doesn't Feel Right To Throw It Out so We'll Get into some of the Reasons for Saving in a Moment Now these Symptoms Result in a Large Volume of Clutter so You Can Imagine and You Know for People Who Are Older if They've Been Doing this for a Very Long Time that Clutter Volume Is Going To Sneak Up over the Years so We'll Talk about the Onset and Trajectory in a Moment So How Does Hoarding Disorder Come To Be How Does Someone Develop

You Know Oftentimes You'll Hear in Popular Media or on some of those Tv Shows that It Was some Kind of Life Event That Got this Whole Thing Started Unfortunately It's Not As Simple as that There's a Variety of Things That Have Led to this Person and Their Current Condition and the Hoarding Symptoms so It's a Combination of Their Personal History so Their Family History and some Learned Behaviors You Know if You Grow Up in a Household Where There Is Hoarding Behavior Happening You May Learn that You Might Need To Keep those Items As Well as Genetic Vulnerabilities There's a Strong Genetic Component So if You Have a First-Degree Relative with this Condition You're Much More Likely To Have It We Also Know that People Have the Way that Their Brain Functions Is a Bit Differently

If any of You Know Somebody with Hoarding They Have a Great Amount of Distress When They Have To Do Something about Their Items and All this Leads to Just a Nonstop Constant and Ongoing Condition of Saving Items and an Inability To Discard So What Are the Primary Reasons for Saving I Often Get Asked the Questions Why Does Somebody Do this Why Can't They Just Clean Up Well that's a Whole Loaded Question but Why Do Why Do People Save Things You Know Commonly We'll Hear Something like It Just Doesn't Feel Right I Just Can't Throw It Out It Makes Me So Uncomfortable To Get Rid of Something

So What Are the Primary Reasons for Saving I Often Get Asked the Questions Why Does Somebody Do this Why Can't They Just Clean Up Well that's a Whole Loaded Question but Why Do Why Do People Save Things You Know Commonly We'll Hear Something like It Just Doesn't Feel Right I Just Can't Throw It Out It Makes Me So Uncomfortable To Get Rid of Something so They Don't Really Know Why It Just Doesn't Feel Good It Just Creates some Distress

You Remember You Recall a Relative Reading the Newspaper a Lot and that Reminds You of that so There's Just Just Strong Emotional Significance to that and Finally I Will Lose Important Information if I Throw this Out so Paper Is the Biggest Culprit Here because Paper Has a Lot of Information on It There's a Lot of Words on those Pages Sometimes and if that's Gone It's Gone Forever Is the Idea

so Rather than Having To Face the Fear of Losing that People Will End Up Keeping It Just in Case Now I Suspect It's More the Clutter That Increases over Time because Natural Build Up You Know Just Practically Speaking Forty Years of Stuff Is Going To Look Different than 80 Years of Stuff so the Clutter Volume Probably Increases I'M Not Sure about whether or Not those Urges To Save in Difficulty Discarding Increase or Do They Probably Remain Stable but the Clutter Increases Which Poses Special Issues for Seniors Which We'LI Get into So Unfortunately When One Has Hoarding Symptoms and Hoarding Disorder Probably More Often than Not You'Re Going To See Psychiatric Comorbidities Meaning They'Re Going To Have Other Kinds of Mental Health Issues Happening and Most Commonly Is Depression

And Interestingly Enough that Depression Sometimes Will with Appropriate Treatment Will Go Away with the Treatment of Hoarding so We Could We Consider the Depression Piece Often Secondary so the Hoarding Symptoms Cause the Person To Feel Depressed and if You Think about It You Know if You'Re Embarrassed or Shamed about Having People Over and You'Re Upset about Not Being Able To Clean Up Your House Even though You Want To but You Just Can't because It's Hard for You To Get Your Possessions out the Door and a Variety of Other Things That Are Going On if It Makes Sense that People Are Feeling More Depressed

You Know if You'Re Embarrassed or Shamed about Having People Over and You'Re Upset about Not Being Able To Clean Up Your House Even though You Want To but You Just Can't because It's Hard for You To Get Your Possessions out the Door and a Variety of Other Things That Are Going On if It Makes Sense that People Are Feeling More Depressed You Know About 20 % We'LI See Other Folks with Anxiety Disorders so Things like Excessive Worry or Social Concerns or Things of that Nature and Then We See some Other Things like Obsessive Compulsive Disorder but Most Commonly in Seniors We Will See Depressive Symptoms Now What Is It that People Collect

It's Hard for Them To Eat Three Meals a Day They'Re Not Going To Be Taking Their Medications Appropriately and Planning Ahead To Get those Refills in Time Further They'Re Not Really Taking Care of Their Nutritional Needs some May Be Eating Spoiled Food some May Be Just Skipping Meals All Together There Is an Increased Fall Risk so I Have Personally Fallen in some of My Clients Homes and So Many of My Staff Imagine Somebody with some Medical Issues or Problems Trying To Get through Narrow Pathways in Their Home so We Often Do See Again an Increased Fall Risk and Serious Consequences Associated with that They Have Impairment in Their Activities of Daily Living And It Can Be Challenging for the Person To Get Out and the Fire People To Get in We Often We Also in San Diego County Have Had People Go to Jail for this So There They Are Prosecuted by the City Attorney's if Folks Are Not Appropriately Cleaning Up Their Spaces Where It's Impacting Other Homeowners and Community Values So if Somebody Has a Yard for Example That's Probably the Most Obvious Place Where You'Re Going To Get a Fine from Code Enforcement and Then They May Pursue Legal Issues Pending the Case

So if Somebody Has an Injury They Break a Leg and They'Re Not Able To Clean Up and Things Really Accumulate over Time That May Be a Reason Why There's a Lot of Clutter in There Sometimes Folks Will Inherit a Lot of Items Rather Quickly and Have To Clean Out Their Parents Home or Siblings Home and Their Home Is Filled Quickly Sometimes Their Spouse Is Hoarding Disorder and It's Not Them At All so It's Important To Do this Assessment To Really Determined What's What's Creating this Clutter and What We'Re Looking for Again Are those Two Key Things Urges To Save and Difficulty Discarding those Are the Key Components

That's Not What We Do that's Only Done Typically When Clinicians Are Not Involved or if There's a Very Serious Health Hazard or Threat this May Need To Happen Obviously Understandably People with Hoarding Are Reluctant To Let this Happen this Is Very Distressing for the Older Person and It's Not It's Not Treatment It's Not Treatment this Doesn't Treat the Urges To Save and Difficulty Discarding this Treats the Clutter Volume Only So I Will Bet Money That We Go Back in a Year and that Home Is Required I Can Guarantee It So so We See this Happen Again Particularly in Cases Where There's Rentals and a Landlord Must Have the Place Cleared You Know We Certainly See that but It's Not the Best

And Three Got a Lot Better but Still that's Not Quite Good Only Three People Got Better out of All those Folks so We Concluded that Gold Standard Cognitive Behavioral Therapy for Hoarding Disorder May Not Work Well for Older Adults but What We Did Learn Is that Older People Can Tolerate 26 Sessions of Treatment There's Often this Kind of Myth Out There that Older People Don't Want To Stick and Treatment or Stay in Treatment for 26 Sessions It's Too Taxing or for some Reason but It Wasn't We Didn't Have any Drop Even though They Didn't Get Better They Stuck It Out and Didn't Drop Homework Compliance Was Super Important so those That Did Well Did the Homework If We Have Time We'LI Talk about What that Looks like a Little Bit More but Exposure Therapy

for Making Choices and Discarding Possessions Did Appear To Work Well Based on Clinician Rapport and Participant Rapport and Then We Thought We Could Teach Skills To Actually Improve or Remediate Cognitive Functioning So in those Areas Where We've Found and We Know that There Are some Problems or Weaknesses We Can Improve that and Hopefully this Will Help with Compliance Issues and and Relapsing Back to Bad Habits So this Is Kinda these Are All the Skills That We Have Put Together that We Believed Would Be Helpful for Folks with Hoarding Disorder We Start with some Standard Organizational Strategies Again these Are Things We Could all Use some Brushing Up on People without Hoarding Disorder I'M Sure-. so these Are Basic Rules That We've Heard and We've Kind Of Read in Magazines over the Years and Thought Would Be Good Ideas but We Actually Teach People How To Do this because They May Not Have a Filing System They May Not Have a Bookshelf To Put Their Books in some of this Basic Groundwork Does Need To Be Laid and Then We Move Right into Our Cognitive Rehabilitation so That Includes Doing Practical Skill Sets on Problem Solving Perspective Memory and Planning

What Are some of the Steps You Need To Take To Get Everything Prepared and Ready To Go if You Have a Doctor's Visit Today What Is It that You Need To Do To Make that Happen As Well as Cognitive Flexibility and that Is Being Able To Think a Little Bit Flexibly People with Hoarding Often Have the Problem of if Something Doesn't Work They Just Keep Doing It Even though It's Not Working We Need To Have Them Identify When It's Not Working and When To Shift and Try a New Strategy Often Have the Problem of if Something Doesn't Work They Just Keep Doing It Even though It's Not Working We Need To Have Them Identify When It's Not Working and When To Shift and Try a New Strategy so We Teach People How To Do these Things and in Light of Time I'M Just Going To Quickly Skip a Few Slides Here and Talk about What We Do in Our Exposure Therapy Piece of the Treatment so this Is the Most Emphasized Portion of Treatment the Rationale Is Based on Habituation and Distress Tolerance so It's Basic Principle if You're Scared of a Dog What Is It that We Do with People Who Are Scared of Dogs

We Have Them Make Difficult Choices and Discard Things Again It's Based on Their Own Choice We Don't Tell People To Throw Things Out It's Based on Their Choice To Throw Things Out and by Sticking with It and Doing It Repeatedly over Time They Learn that They Can Tolerate They Can Make Decisions Bad Things Don't Happen that's Hopefully What They Learn So Daily Practice Is Key So once We Start the Exposure Therapy in Session They Must Do It every Day and We Call this the Life You Know the New Lifestyle so It's Not like You Know It's Just like Exercise

Now this Is this Is Part of a Skill Set That Must Be Practiced and Maintained Remembering that this Is a Chronic Disorder this Is Again It's Not Something That's Going To Completely Clear Up in Time Yes Symptoms Will Decrease Significantly but You Got To Keep Up with It So Let's Talk about some of Our Preliminary Results so We Did a Similar Study with Same Sample Size Where We Tried this New Technique So Again this Is the Cog Rehab or Rehabilitation plus Exposure Therapy and after 24 Weeks That's Actually Two Weeks Less Sessions We Had some Great Results
