Dodo Doo-Doo

A funny and fast-moving story about why the dodo died.

Gritli's Children

Johanna Spyri's "Gritli's Children" is a joyful novella written by the acclaimed Swiss author best known for her classic work, "Heidi." Spyri's lesser-known gem portrays the moving story of Gritli, a tough young girl, and her adventures in the Swiss Alps. Gritli, an orphaned youngster living in a remote mountain community with her grandfather, opens the novella. Gritli's existence is marked by hardship and loneliness until she is befriended by Madle, another country girl. They develop a deep and lasting bond that provides peace and companionship in the midst of life's trials. The spectacular grandeur of the Alpine environment and the simplicity of rural life are captured in Spyri's expressive words. The fundamental themes of the novel focus around the value of friendship, perseverance, and the healing power of nature. Readers are treated to a moving narrative that praises the strength of the human spirit as Gritli and Madle embark on numerous journeys and endure life's hardships together.

Dead as the Dodo

Om te bewijzen dat hij bestaat vliegt een zogenaamd uitgestorven vogel naar het Engelse Parlement in Londen. Hier bedenkt men een list om van dit vreemde probleem weer verlost te worden.

Didi Dodo

Johanna Spyri (1827-1901) was an author of children's stories. Born Johanna Louise Heusser in the rural area of Hirzel, Switzerland, as a child she spent several summers in the area around Chur in Graubunden, the setting she later would use in her novels. Her first book titled *A Leaf on Vrony's Grave*, was published in 1871 and the following year further stories for both adults and children appeared, among them the tale of *Heidi* (1880) that became an instant and enduring success. Her husband and her only child, a son named Bernhard, both died in 1884. Alone, she devoted herself to charitable causes and wrote over fifty more stories before her death in 1901. Amongst her other works are: *Uncle Titus and His Visit to the Country* (1881), *Toni, the Little Woodcarver* (1882), *Gritli's Children* (1883) and *Moni the Goat-Boy* (1886).

Gritli's Children (Dodo Press)

Eric VanRaepenbusch does it again with another book for young readers. Enjoy three stories (Uh-oh, Dodo., No. No. Dodo!, and Dodo Go-Go!) about a silly bird with a silly name written with simple, repetitive text and illustrated with bright, crisp drawings. Children can read this book by themselves or with someone they love. It is sure to bring many giggles!

Dodo

The year is AD 1650, and dodos Bertie and Beatrice are living peacefully on an island in the Indian Ocean. Peacefully, that is, until sailors arrive and discover that dodo tastes a lot like chicken. With the sailors come a host of hungry rats. They like nothing more than dodo eggs for breakfast, lunch and dinner, and Bertie and Beatrice are about to start a family. Sir Francis Drake, the captain's parrot, warns the lovebirds that if they're not careful, their species could become extinct. But what's a dodo to do-do?

Dodos Are Forever

Louis isn't like other boys: he loves birds as much as other kids love baseball, and he helps and protects them in every way. And today his adored birds are all atwitter: they've learned that earth's last living dodo is trapped by the eeriest, creepiest circus ever, and forced to perform dangerous tricks. Louis resolves to return the bird to its home, and, together with his feathered friends, he succeeds...and earns a visit to a magical world no other human has seen before.

Louis and the Dodo

Walter Crane (1845-1915) was an English artist. Born in Liverpool, he was part of the Arts and Crafts movement. He produced paintings, illustrations, children's books, ceramic tiles and other decorative arts. In 1862 his picture *The Lady of Shalott* was exhibited at the Royal Academy, but the Academy steadily refused his maturer work; and after the opening of the Grosvenor Gallery in 1877 he ceased to send pictures to Burlington House. In 1864 he began to illustrate a series of sixpenny toy-books of nursery rhymes in three colours for Edmund Evans. He was allowed more freedom in a series beginning with *The Frog Prince* (1874) which showed markedly the influence of Japanese art, and of

a long visit to Italy following his marriage in 1871. From the early 1880s, Crane was closely associated with the Socialist movement. He provided the weekly cartoons for the Socialist Organs Justice, The Commonweal and The Clarion. One of his last major works would be his Lunettes at the Royal West of England Academy which were painted in 1913.

(1899), Kim (1901), Just so Stories (1902), Puck of Pook's Hill (1906), and The Brushwood Boy (1907). Despite having turned down many honours in his lifetime, including a knighthood and the poet laureateship, in 1907, he accepted the Nobel Prize for Literature – the first English author to be so honoured. The Three Little Pigs is a fable/fairy tale featuring anthropomorphic pigs who build three houses of different materials. A big bad wolf blows down the first two pigs' houses, made of straw and sticks respectively, but is unable to destroy the third pig's house, made of bricks. Printed versions date back to the 1840s, but the story itself is thought to be much older. The phrases used in the story, and the various morals drawn from it, have become embedded in Western culture. (Large print, purple print, and illustrated)

Anecdotes for Little Boys

Ada Lovelace (1815–1852) was the daughter of Lord Byron, a poet, and Anna Isabella Milbanke, a mathematician. Her parents separated when she was young, and her mother insisted on a logic-focused

education, rejecting Byron's "mad" love of poetry. But Ada remained fascinated with her father and considered mathematics "poetical science." Via her friendship with inventor Charles Babbage, she became involved in "programming" his Analytical Engine, a precursor to the computer, thus becoming the world's first computer programmer. This picture book biography of Ada Lovelace is a compelling portrait of a woman who saw the potential for numbers to make art.
