### Poems of the Great War - 1914 to 1918

33% of the net profit from the sale of this book will be donated to the British Legion for their continued work with Returned Servicemen. This collection of War Poems represented the free offering of English poets to the cause of WWI's National Relief. Most of these poems appeared in the Press at the outbreak of WWI. Mr. Robert Bridges' (Poet Laureate 1913 - 1930) opening contribution, Mr. Henry Newbolt's, Mr. Maurice Hewlett's, Mr. R. E. Vernede's, Mr. Binyon's, were all printed in the Times during the few days immediately following the declaration of war, as also was the sonnet by Mr. William Watson. Sir Owen Seaman's poem came out originally in Punch, "The Hour" in the Daily Telegraph, "The United Front" in the Daily Mail. "We Willed it Not" is reprinted from the Sphere, "Duty" and "Commandeered" from the Westminster Gazette, and the poems by Mr. Gilbert and Mr. Cecil Chesterton from the New Witness. The New Weekly published the verses by Mr. John Freeman, and the Daily Chronicle those by Mr. Harold Begbie. The two hymns which close the collection are reprinted, by special permission of their authors, from volumes previously published. The original cover design, from which the current was developed, was contributed by Mr. William Nicholson (1872 - 1949).

### Poems of the Great War

Published to commemorate the eightieth anniversary of Armistice, this collection is intended to be an introduction to the great wealth of First World War Poetry. The sequence of poems is random - making it ideal for dipping into - and drawn from a number of sources, mixing both well-known and less familiar poetry.

## Poems Written During the Great War 1914 - 1918

This collection featuring nearly 50 memorable poems from some of the best writers of the time: Rupert Brooke, Siegfried Sasson, Wilfred Owen, Ivan Gurney, Isaac Rosenberg, Richard Aldington, Edward Thomas, and many more. Vividly expressing the ravages of war fought on the front lines, their poems are some of the most powerful and poignant works of the twentieth century.

### Poems of the Great War

Excerpt from *Valour and Vision: Poems of the War, 1914-1918* In the hope that these poems may recall for some who read them the honour of our Nation's purpose in the Great War, this selection has been made with all deference and admiration. I take this opportunity of thanking all those who have kindly given permission for the inclusion of copyright poems; in every case the customary fees have been most generously waived in consideration of the object which this book is designed to help. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

### Poems of the Great War

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

### Valour and Vision

"The present Anthology contains a number of representative poems produced by English-speaking men and women. The editorial policy has been humanly hospitable, rather than academically critical, especially in the case of some of the verses written by soldiers at the Front, which, however slight in certain instances their technical merit may be, are yet psychologically interesting as sincere transcripts of personal experience, and will, it is thought, for that very reason, peculiarly attract and interest the reader. It goes without saying that there are several poems in this group which conspicuously succeed also as works of art. For the rest, the attempt has been made, within such limitations as have been experienced, to present pretty freely the best of what has been found available in contemporary British and American war verse." This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.

### Valour and Vision, Poems of the War, 1914-1918;

An anthology of poetry and paintings from the First World War. "For the first time, poems and paintings from many of the key nationalities participating in that world-transforming conflict have been brought together...allowing the reader to understand how each... reflects a particular national viewpoint, but also shows how similar many of the themes of war were between nationalities." -- from book jacket. Full-color paintings throughout.

## A Treasury of War Poetry: British and American Poems of the World War 1914-1917 (WWI Centenary Series)

This book presents a realistic account of the early years of C.S. Lewis as revealed in "Spirits in Bondage" and its surrounding events. It calls for a reappraisal of Lewis himself, not as a "soldier-poet" but as a young, ruthless and ambitious would-be academic, using others—his father, his university, his mistress—to further his own ends.

## Poems Written During the Great War, 1914-1918

A Treasury of War Poetry British and American Poems of the World War 1914-1917 is a compilation of poems by various authors. They embrace the loyalty, bravery and endurance that soldiers displayed during ww1.

## We Are the Dead

The author volunteered for the army in August 1914 and the first two chapters of his book give an almost day to day account of his adventures as a private in the trenches. He was introduced to warfare and trained as a Lewis gunner before the battle of Loos. He took part in the battle itself and in the heavy fighting afterwards. In 1916 he was sent to Blighty for an appendix operation and after training he became a Second Lieutenant. In a third chapter he describes how he cut his teeth as an officer in Palestine and returned to France in May 1918 for more heavy fighting. In September 1918 he was severely wounded in an action for which he was awarded the Military Cross. Finally, his letter home concerning this action is followed by a dozen of his poems which reveal some of his feelings at the time. The book would be of particular interest to historians and to school children studying the Great War 1914 - 1918.

## C.S. Lewis, Poetry, and the Great War 1914-1918

A cycle of poems commemorating those who perished in the Great War, 1914-1918. It is inspired by a series of podcasts by the Imperial War Museum in connection with the First World War Centenary Partnership, 2014-2018.

## A Treasury of War Poetry: British and American Poems of the World War 1914-1917

"'Welshmen are lovers of peace but they are defenders of liberty,' said David Lloyd George. And whatever the rights and wrongs of the Great War's call to arms, there is no denying the impact of that war on Wales. There is no denying either the impact that Wales itself had upon the war." "Out of the Fire of Hell is an anthology that describes and distils Welsh experiences of the First World War. In poetry and prose, these are the testimonies both of those who fought and those who stood and waited on the home front. They are embattled and emotive confessions of public figures and unsung heroes alike, the harrowing and humorous observations of both officer and private - and of their loved ones." "Many of the pieces included are translations of the work of some of the major Welsh-language writers of the early twentieth century, like Hedd Wyn, Cynan and Saunders Lewis. These stand side-by-side with great Welsh names of the English tradition, like Edward Thomas, Wilfred Owen and T. E. Lawrence, whilst there is room also for Englishmen who identified very closely with the Welsh experience, like Ivor Gurney and Robert Graves." "The anthology is illustrated by striking black-and-white photographs, visual reminders of who these people were and what they had to endure."--BOOK JACKET.

## Adventures of a Soldier in the Great War 1914 - 1918 and Some of His Poems

In memoriam the fallen of The Great War 1914-1918.

## Voices of the First World War

None Shall Sleep Till Journey's End is a centennial commemorative of free verse poetry honoring the lamented soldiers and civilians of the 1914 - 1918 Great War. Selections reflect the point of view and the unique voice of myriad characters who experienced the horrors, the tragedy, the pity of the First World War.

## Out of the Fire of Hell

Today's world owes an enormous debt of gratitude to the many millions who died for our freedom during the First World War, and it is important that we never forget the horrific violence and tragic loss of life suffered in those years. Unforgotten is a poignant and sometimes humorous collection of World War One poems and short stories told from many different viewpoints. As descendants of those fresh-faced soldiers, who perished so we may live our relatively comfortable lives, we owe it to each and every one of them to speak their names and tell their stories.

#### 19Appledore18

Vincent Sherry reopens long unanswered questions regarding the influence of the 1914 war on the verbal experiments of modernist poetry and fiction. He recovers the political discourses of the British campaign, offering new readings of Woolf, Eliot and Pound.

#### None Shall Sleep Till Journey's End

Today's world owes an enormous debt of gratitude to the many millions who died for our freedom during the First World War, and it is important that we never forget the horrific violence and tragic loss of life suffered in those years. Unforgotten is a poignant and sometimes humorous collection of World War One poems and short stories told from many different viewpoints. As descendants of those fresh-faced soldiers, who perished so we may live our relatively comfortable lives, we owe it to each and every one of them to speak their names and tell their stories.

#### Unforgotten

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

#### Poems of World War One 1914 - 1918

Excerpt from Poems of the Great War The responsibility for the selection of the poems included in this volume rests entirely on my shoulders, though I am pleased to acknowledge the very kind help on this side of the Atlantic of Mr. Edward C. Marsh of the Macmillan Company, Miss Helen Rex Keller, Librarian of the School of Journalism, and Professor A. H. Thorndike of Columbia University; in England of Mr. F. Madan, Bodley's Librarian, Mr. G. W. Wheeler and Mr. J. W. Smallwood of the Radcliffe Camera, Oxford, Sir Walter Raleigh, Lady Scallon, Mr. A. R. Waller, Sir Adolphus Ward, and Sir Herbert Warren. While poetic merit has been, of course, the paramount consideration, I have endeavored to exercise a catholic judgment, and to give fair representation to various schools of thought and expression as well as to the various phases of the War. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. ## Valour and Vision, Poems of the War, 1914-1918

A Treasury of War Poetry: British and American Poems of the World War 1914-1917

## Recruiting Poems

Revising his 1996 doctoral dissertation for the University of South Carolina, Haughey seeks out the response of Irish poets to the Great War, which he finds to have been cast into deep critical shadow by the dazzle of English poetry about that war, and the glare of poetry on the contemporary Irish independence movement. Annotation copyrighted by Book News, Inc., Portland, OR

## Poems of the Great War (Classic Reprint)

Excerpt from A Treasury of War Poetry: British and American Poems of the World War, 1914-1917  
"Hark! now the Drums up again, For all true Soldiers Gentleman!" - Corporal John Brown, Grenadier Guards, 1854. "Life in no life to him that dares not die, And death no death to him that dares not live." - Sir Henry Newbolt. "We saw not clearly nor understood, But, yielding ourselves to the master-hand, Each in his part as best he could, We played it through as the author planned." - Alan Seegar. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. ## Poetry of the First World War, 1914-1918

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

## Poems of the Great War

The horrors of the First World War released a great outburst of emotional poetry from the soldiers who fought in it as well as many other giants of world literature. Wilfred Owen, Rupert Brooke and W B Yeats are just some of the poets whose work is featured in this anthology. The raw emotion unleashed in these poems still has the power to move readers today. As well as poems detailing the miseries of war there are poems on themes of bravery, friendship and loyalty, and this collection shows how even in the depths of despair the human spirit can still triumph.

## A Treasury of War Poetry

The Great War was the first in British history to involve virtually the entire population of Britain. A vast quantity of poems, fiction, essays, speeches, letters, memoirs and other written material was produced during 1914 and 1918 and Hibberd chooses both famous passages and excerpts which have never before been reprinted, from both the imaginative poetry and prose of the period, and documents such as newspapers and politicians' speeches. The linking commentary illuminates the very close relationship between the literature and history of this time, which is further highlighted by the chronological table, plates section and further reading sections.

A Treasury of War Poetry, British and American Poems of the World War, 1914-1917, Ed., with Intr., and Notes, by G.H. Clarke

Poems from the First World War is a moving and powerful collection of poems written by soldiers, nurses, mothers, sweethearts and family and friends who experienced WWI from different standpoints. It records the early excitement and patriotism, the bravery, friendship and loyalty of the soldiers, and the heartbreak, disillusionment and regret as the war went on to damage a generation. It includes poems from Wilfred Owen, Rupert Brooke, Vera Brittain, Eleanor Farjeon, Edward Thomas, Laurence Binyon, John McCrae, Siegfried Sassoon and many more. The Imperial War Museum was founded in 1917 to collect and display material relating to the 'Great War', which was still being fought. Today IWM is unique in its coverage of conflicts, especially those involving Britain and the Commonwealth, from the First World War to the present. They seek to provide for, and to encourage, the study and understanding of the history of modern war and wartime experience.

## A Treasury of War Poetry

Paul Fussell's award-winning landmark study of World War I, originally published in 1975, remains as original and gripping today as ever but now, for the first time, his literary and illuminating account comes in a beautifully illustrated edition. World War I changed a generation, ushered in the modern era, and revolutionized how we see the world. By drawing from a variety of primary sources including personal correspondence, newspapers, and literary works Fussell brings the period alive. Not only does he give us a more profound understanding of what the Great War meant to the people who lived through it, he also analyzes our modern perception of its impact. The wide selection of rare and fascinating images (approximately 160 of them) includes photographs, illustrations, and maps from period books, magazines, newspapers, advertisements, and other publications. Not only do they heighten the impact of Fussell's remarkable critical interpretation, they help us fully grasp the true scope of this aptly named and catastrophic war.

Searching the Fields

Mass Graves of Russian prisoners of war near the village playground

Mass grave apparently containing the bodies of several hundred German prisoners of war found during construction....

Because of the large number of bodies piled together, no attempt is made to exhume them in archaeological manner.

All bodies are however transferred to the German cemetery in Rossoshka, and their identification tags are handed to the proper authorities.

A Russian ID tag is found mixed in the mass of German soldiers...

Near the village football field, a former trench is excavated at random. Two bodies of Russian prisoners are found piled in it.

Once the first body is removed, a third body becomes visible

And after these two bodies are also removed, two more become visible underneath

Rossoshka cemetery museum

Russian soldiers can often only be identified by names carved into their spoons

Rossoshka German cemetery

## Early Roman Warfare

While copious amounts have been written about the Roman army, most study has focussed on the later Republic or the Imperial period when the legionary system was already well-developed. Here Dr Jeremy Armstrong traces the development of Rome's military might from its earliest discernible origins down to the First Punic War. He shows how her armies evolved from ad-hoc forces of warriors organized along clan lines and assembled for the city's survival, to the sophisticated organization of the legions that went on to dominate all of Italy and then (after the period covered) the entire Mediterranean world. The author reviews both the literary sources and the latest archaeological evidence to provide a fresh analysis of Roman military organization, equipment, tactics and strategy. He shows how Rome's military apparatus adapted to meet the changing strategic needs of new enemies and broader ambitions. This study of the origins of the Classical world's most formidable war machine will be welcomed by anyone with an interest in Classical, and especially Roman, military history.

## The Army of the Roman Republic

From the moment its last king was expelled (traditionally in 753) the Roman republic had to fight for its very survival. Centuries of almost continuous warfare saw Rome's armies evolve in response to a wide variety of threats which were met with mixed fortunes though always with ultimate success. As defence of the homeland turned to territorial expansion, Roman forces also had to adapt to sustained campaigns in varied terrain and climates, not to mention the changes in the Roman republic itself. Michael Sage traces the development of the republic's army from its foundation (having first set the context of their

regal antecedents), down to the time of its most famous leader, Julius Caesar. The transition from clan-based forces, through the Servian levy and the development of the manipular and cohortal legion is examined along with the associated weapons, tactics and operational capabilities. We see how the legions shaped up against the challenges of successive enemies from the Celts and Samnites, the Carthaginians and the hitherto-dominant Hellenistic armies based on the Macedonian-style pike phalanx.

### History of The Roman Legions

An extraordinary eBook. Over 800 pages, 42 full-color illustrations, out of the text, of Tancredi Scarpelli, Italian illustrator, 30 full-color illustrations, out of the text, of great painters, various illustrations black and white in the text. All the texts of this eBook are free available on the web. Why buy it? Because the book is a resource that provide to a considerable added-value: it coordinates, in logical way, to gather texts scattered on the web the images in full-color and in black and white list of films set in ancient Rome the Most Important Movies All the arguments of the eBook: The History of all roman legions: Organization, Equipment, Body armour, Tactics, Levy and conditions of service, Campaign record, Marching-order and camps, Social impact of military service. Political history of the Roman military, Roman kingdom, Roman Republic from late Republic to mid-Roman Empire, Middle Roman Empire, Late Roman Empire Other: Imperial cavalry, Privileges, Relations, Oligarchical rule, Composition of legions, Roman conquest of Italy, Pattern of Roman expansion, Benefits of Roman hegemony, Military organisation of the Roman alliance, Historical cohesion of the Roman alliance, Samnite Wars, Pyrrhic War, 2nd Punic War, Social War, Integration of socii, Causes of socii revolt, Outbreak of revolt, Roman unification of Italy, Expansion of the Roman Republic, Imperial times, Conquest of the Iberian peninsula (219–18 BC), Macedon, the Greek poleis, and Illyria (215–148 BC), Jugurthine War (112–105 BC), Resurgence of the Celtic threat (121 BC), New Germanic threat (113–101 BC), Conflicts with Mithridates (89–63 BC), Campaign against the Cilician pirates (67 BC), Caesar's early campaigns (59–50 BC), Triumvirates, Caesarian ascension, and revolt (53–30 BC). Empire: Imperial expansion (40 BC – 117 AD), Year of the Four Emperors (69 AD), Jewish revolts (66–135 AD), Struggle with Parthia (114–217 AD), Usurpers (193–394 AD), Struggle with the Sassanid Empire (230–363 AD), Collapse of the Western Empire (402–476 AD), Social War, Civil Wars. Bibliography. List of films set in ancient Rome, The Most Important Movies, Source of the Texts.

### Romans at War

This volume addresses the fundamental importance of the army, warfare, and military service to the development of both the Roman Republic and wider Italic society in the second half of the first millennium BC. It brings together emerging and established scholars in the area of Roman military studies to engage with subjects such as the relationship between warfare and economic and demographic regimes; the interplay of war, aristocratic politics, and state formation; and the complex role the military played in the integration of Italy. The book demonstrates the centrality of war to Rome's internal and external relationships during the Republic, as well as to the Romans' sense of identity and history. It also illustrates the changing scholarly view of warfare as a social and cultural construct in antiquity, and how much work remains to be done in what is often thought of as a "traditional" area of research. *Romans at War* will be of interest to students and scholars of the Roman army and ancient warfare, and of Roman society more broadly.

### War and Society in the Roman World

This volume focuses on the changing relationship between warfare and the Roman citizenry; from the Republic, when war was at the heart of Roman life, through to the Principate, when it was confined to professional soldiers, and to the Late Empire and the Roman army's eventual failure.

### War and Society in Early Rome

This book combines the rich, but problematic, literary tradition for early Rome with the ever-growing archaeological record to present a new interpretation of early Roman warfare and how it related to the city's various social, political, religious, and economic institutions. Largely casting aside the anachronistic assumptions of late republican writers like Livy and Dionysius of Halicarnassus, it instead

examines the general modes of behaviour evidenced in both the literature and the archaeology for the period and attempts to reconstruct, based on these characteristics, the basic form of Roman society and then to 're-map' that on to the extant tradition. It will be important for scholars and students studying many aspects of Roman history and warfare, but particularly the history of the regal and republican periods.

### Roman Warfare

From an award-winning historian of ancient Rome, a concise and comprehensive history of the fighting forces that created the Roman Empire Roman warfare was relentless in its pursuit of victory. A ruthless approach to combat played a major part in Rome's history, creating an empire that eventually included much of Europe, the Near East and North Africa. What distinguished the Roman army from its opponents was the uncompromising and total destruction of its enemies. Yet this ferocity was combined with a genius for absorbing conquered peoples, creating one of the most enduring empires ever known. In *Roman Warfare*, celebrated historian Adrian Goldsworthy traces the history of Roman warfare from 753 BC, the traditional date of the founding of Rome by Romulus, to the eventual decline and fall of Roman Empire and attempts to recover Rome and Italy from the "barbarians" in the sixth century AD. It is the indispensable history of the most professional fighting force in ancient history, an army that created an Empire and changed the world.

### Romans at War

A comprehensive guide to this remarkable ancient fighting force: "Groundbreaking insights into the Roman military . . . sumptuously illustrated." —Love Reading The Roman military machine was pre-eminent in ancient times, projecting power across the known world over a vast chronology, and an increasingly huge and diverse geography. One of the most powerful instruments of war in the history of conflict, it proved uniquely adept at learning from setbacks, always coming back the stronger for it. In so doing, it displayed two of the most important traits associated with the world of Rome. Firstly grit, that key ability to remain steadfast and to overcome adversity even in the most challenging of circumstances, as faced for example by the Republic in the Second Punic War against Hannibal. Secondly, the ability to copy the successful technical and tactical innovations of their enemies, enabling the Roman military to always stay one step ahead of its opponents on campaign and in battle. In this grand tour, covering every aspect of the Roman military, leading expert Dr. Simon Elliott first provides a detailed background to the Roman Republic and Empire to provide context for all that follows. He then looks specifically at the Roman military in its three key chronological phases: the Republic, the Principate Empire, and the Dominate Empire. Next he forensically examines specific instances of the Roman military on campaign and in battle, and of its engineering prowess. Finally, he investigates the many enemies faced by the Roman Republic and Empire. This all provides a firm structure to enable the reader to come to grips with this incredible military machine, one whose exploits still resonate in the world to this very day.

### A Critical History of Early Rome

Traces the history of early Rome, covering such topics as religion, language, and culture.

### Warfare in the Roman Republic

This easy-to-use reference book covers the most important people, places, events, and technologies of Roman warfare during the republic (400–31 BCE), providing a wealth of reference material and invaluable primary source documents. The study of ancient Rome remains both a high-interest topic and a staple of high school and university curricula, while recent Hollywood movies continue to heighten popular interest in Rome. This multi-format handbook examines warfare in ancient Rome during the republic period, from approximately 400 BCE to 31 BCE. Presenting ready reference, primary source documents, statistical information, and a chronology, the title explore all aspects of conflict during this time period, including key military leaders, pivotal battles and sieges, new weapons and technologies, and the intersections of warfare and society in the ancient world. The reference entries provide detailed snapshots of key people, events, groups, places, weapons systems, and strategies that enable readers to easily understand the critical issues during 400 years of the Roman Republic, while various overview, causes, and consequences essays offer engaging, in-depth coverage of the most important wars. By providing students with in-depth information about how the Roman Army operated, they develop a fuller understanding Roman, ancient, and world history.

## Rome Spreads Her Wings

The two decades between the end of the First Punic War and the beginning of the Second represent a key period in the development of Rome's imperial ambitions, both within Italy and beyond. Within Italy, Rome faced an invasion of Gauls from Northern Italy, which threatened the very existence of the Roman state. This war culminated at the Battle of Telamon and the final Roman victory against the Gauls of Italy, giving Rome control of the peninsula up to the Alps for the first time in her history. Beyond the shores of Italy, Rome acquired her first provinces, in the form of Sardinia and Corsica, established footholds in Sicily and Spain and crossed the Adriatic to establish a presence on the Greek mainland, bringing Rome into the orbit of the Hellenistic World. Yet this period is often treated as nothing more than an intermission between the two better known Punic Wars, with each Roman campaign being made seemingly in anticipation of a further conflict with Carthage. Such a view overlooks two key factors that emerge from these decades: firstly, that Rome faced a far graver threat in the form of the Gauls of Northern Italy than she had faced at the hands of the Carthaginians in the First Punic War; secondly, that the foundations for Rome's overseas empire were laid in these very decades. This work seeks to redress the balance and view these wars in their own right, analyse how close Rome came to being defeated in Italy and assess the importance of these decades as a key period in the foundation of Rome's future empire.

## A Companion to the Roman Army

This companion provides an extensive account of the Roman army, exploring its role in Roman politics and society as well as the reasons for its effectiveness as a fighting force. An extensive account of the Roman army, from its beginnings to its transformation in the later Roman Empire Examines the army as a military machine – its recruitment, training, organization, tactics and weaponry Explores the relationship of the army to Roman politics, economics and society more broadly Considers the geography and climate of the lands in which the Romans fought Each chapter is written by a leading expert in a particular subfield and takes account of the latest scholarly and archaeological research in that area

## The Battle of Cannae

\*Includes pictures \*Includes ancient accounts of the battle \*Includes online resources and a bibliography for further reading \*Includes a table of contents "Few battles of ancient times are more marked by ability...than the battle of Cannae. The position was such as to place every advantage on Hannibal's side. The manner in which the far from perfect Hispanic and Gallic foot was advanced in a wedge in echelon...was first held there and then withdrawn step by step, until it had reached the converse position...is a simple masterpiece of battle tactics. The advance at the proper moment of the African infantry, and its wheel right and left upon the flanks of the disordered and crowded Roman legionaries, is far beyond praise. The whole battle, from the Carthaginian standpoint, is a consummate piece of art, having no superior, few equal, examples in the history of war." - Theodore Dodge, military historian Although the Romans gained the upper hand over Carthage in the wake of the First Punic War, the legendary Carthaginian general Hannibal brought the Romans to their knees for over a decade during the Second Punic War. While military historians are still amazed that he was able to maintain his army in Italy near Rome for nearly 15 years, scholars are still puzzled over some of his decisions, including why he never attempted to march on Rome in the first place. Regardless, Hannibal was such a threat that the Romans responded in an unprecedented nature when the Carthaginians resumed the campaigning season in the spring of 216 BCE by capturing the city of Cannae, a crucial supply hub, and placing themselves along the line that convoys from the ports and warehouses of the south needed to travel to reach Rome. This was something the Romans could not and did not take lying down; Rome raised the largest army in their city's history, a force of between 80,000 and 100,000 men, and marched south with Consuls Varro and Paullus at the head of the army. This military behemoth disregarded the delaying tactics that Maximus had favored, fully determined to destroy Hannibal once and for all as quickly as possible. Despite the massive horde headed his way, Hannibal was ready for them. He encamped his army near the Aufidus, a river not far from Cannae, and waited. His intelligence told him that Consul Varro, the more influential of the two Roman generals, was a firebrand, talented in attack but with a tendency to overreach himself, and Hannibal resolved to use this flaw to his advantage. Hannibal arrayed his army in the open, sure that Varro would be unable to resist the temptation to offer battle, and then deliberately placed his weakest infantry in the center of his battle-line. Varro led the Roman legions straight at the centre of Hannibal's formation, proceeding in characteristic bull-headed fashion

and spearheading the assault himself. Hannibal's troops in the center yielded before the legions, as Hannibal had anticipated, sucking the bulk of the Roman force deep into the centre of Hannibal's formation. Meanwhile, the wings of Hannibal's infantry automatically swung against the flanks of the Roman force while Hannibal's cavalry, led by his celebrated general Maharbal, crushed the Roman cavalry and light infantry deployed to protect the formation's flanks and rear and, in so doing, succeeded in encircling it completely. The Roman force now found itself unable to run or maneuver, completely surrounded by Hannibal's forces. It was one of the earliest examples of the pincer movement in the history of warfare. The result was a massacre, one of the most vicious battles in the history of the world. Around 75% of the Roman army was cut down in the ensuing melee, which would be in the vicinity of between 50,000-80,000 soldiers depending on which initial estimates are considered to be accurate. Among the casualties was the luckless Consul Paullus."

### Roman Republic at War

Descriptions of every significant battle fought by the Roman Republic between 480 and 31 BC—and most of the minor ones too: "Amazing" (Books Monthly). The information in each entry of this remarkable book is drawn exclusively from ancient texts in order to offer a brief description of each battle based solely on the information provided by the earliest surviving sources that chronicle the event. This approach provides the reader a concise foundation of information to which they can then confidently apply later scholarly interpretation presented in secondary sources, achieving a more accurate understanding of the most likely battlefield scenario. In writing the battle descriptions, the author has not sought to analyze the evidence contained in the surviving accounts, nor embellish them beyond that which was necessary to provide clarity to the modern reader. He allows the original writers to speak for themselves, presenting the reader with a succinct version of what the ancient chroniclers tell us of these dramatic events. It is an excellent first-stop reference to the many battles of the Roman Republic. "An indispensable reference guide for any student of the Roman military." —The NYMAS Review

### The Making of the Roman Army

In this new edition, with a new preface and an updated bibliography, the author provides a comprehensive and well-documented survey of the evolution and growth of the remarkable military enterprise of the Roman army. Lawrence Keppie overcomes the traditional dichotomy between the historical view of the Republic and the archaeological approach to the Empire by examining archaeological evidence from the earlier years. The arguments of *The Making of the Roman Army* are clearly illustrated with specially prepared maps and diagrams and photographs of Republican monuments and coins.

### The Republican Roman Army

The Republican Roman Army assembles a wide range of source material and introduces the latest scholarship on the evolution of the Roman Army and the Roman experience of war. The author has carefully selected and translated key texts, many of them not previously available in English, and provided them with comprehensive commentaries and essays. This wide-ranging survey of documents recreates the social and historical framework in which ancient Roman warfare took place – from the Archaic and Servian period through to the Late Republic. The topics addressed extend beyond the conventional questions of army mechanics such as strategy and tactics, and explore questions such as the army's influence on Roman society and its economy. Complete with notes, index and bibliography, *The Republican Roman Army* provides students of Ancient and Military History with an unprecedented survey of relevant materials.

### In the Name of Rome

A definitive history of the great commanders of ancient Rome, from bestselling author Adrian Goldsworthy. "In his elegantly accessible style, Goldsworthy offers gripping and swiftly erudite accounts of Roman wars and the great captains who fought them. His heroes are never flavorless and generic, but magnificently Roman. And it is especially Goldsworthy's vision of commanders deftly surfing the giant, irresistible waves of Roman military tradition, while navigating the floating logs, reefs, and treacherous sandbanks of Roman civilian politics, that makes the book indispensable not only to those interested in Rome and her battles, but to anyone who finds it astounding that military men, at once driven and imperiled by the odd and idiosyncratic ways of their societies, can accomplish great deeds." —J. E. Lendon, author of *Soldiers and Ghosts: A History of Battle in Classical Antiquity*

## The Army in the Roman Revolution

The Roman Revolution is one of the most momentous periods of change in history, in which an imperial but quasidemocratic power changed into an autocracy. This book studies the way the Roman army changed in the last eighty years of the Republic, so that an army of imperial conquest became transformed into a set of rival personal armies under the control of the triumvirs. It emphasizes the development of what has often been regarded as a static monolithic institution, and its centrality to political change.

## The Cambridge History of Greek and Roman Warfare

First volume of a systematic and up-to-date account of warfare from Archaic Greece to Republican Rome.

## History of Rome: From the Gaulish invasion to the end of the first Punic war

The first Professional army of the Roman Republic The Roman army during the Second Punic War, a citizen army, developed also in parallel a professional army, the *legiones cannenses* or the Cannae's legions, formed by the veterans of the battle of Cannae (216 BCE). These units showed the same characteristics of the Late Republic and Imperial Roman army already one hundred years before the reforms of Marius. But, how and why a citizen's army became a professional force? There are three main reasons that could explain the transformation of a citizen's army in a professional force, the split of the legionaries from civic life, consequence of the *Senatus Consultum* of 215 BCE, which stripped the common soldiers of their civic rights, the peculiar commitment and loyalty to each of the warlords, that the *legiones cannenses* served, namely Marcus Claudius Marcellus, the conqueror of Syracuse, Publius Cornelius Scipio Africanus, who defeated Hannibal at the battle of Zama, and, last but not least, Titus Quinctius Flamininus, who beat the Macedonian phalanx at the battle of Cynoscephalae, and the evolution and changing of the tactical composition of the legions, from the manipular legion, identical to the other contemporary units, to units which emphasized the primary importance of the cohorts and the centuria, as in the late Republican and early Imperial legions.

## The legiones Cannenses

The Punic Wars (264-146BC) sprang from a mighty power struggle between two ancient civilisations - the trading empire of Carthage and the military confederation of Rome. It was a period of astonishing human misfortune, lasting over a period of 118 years and resulting in the radical depletion of Rome's population and resources and the complete annihilation of Carthage. All this took place more than 2,000 years ago, yet, as Nigel Bagnall's comprehensive history demonstrates, the ancient conflict is remarkable for its contemporary relevance.

## The Punic Wars

First Published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

## History of Rome

The Hellenistic Period (323-31 BCE) saw the Grecian phalanx--long dominant in Mediterranean warfare--challenged by legionary formations from the rising city-state of Rome. The Roman way of war would come to eclipse phalanx-based combat by the 160s yet this was not evident at the time. Rome suffered numerous defeats against the phalanxes of Pyrrhus and Hannibal, its overseas campaign against the brilliant Spartan mercenary Xanthippus met disaster, and several Roman victories over Hellenistic foes were not decisive. The story of combat in this pivotal era is not well documented. This book for the first time provides detailed tactical analyses for all 130 significant land engagements of Hellenistic armies 300-167 BCE.

## The First Punic War

A military history of ancient Italy, featuring details of the weapons, equipment, and tactics, as well as color photos showing how warriors looked. Before becoming the masters of the Mediterranean world, the Romans had first to conquer the Italian peninsula in a series of harsh conflicts against its other varied and warlike residents. The outcome was no foregone conclusion and it took the Romans half a millennium to secure the whole of Italy. In *Armies of Ancient Italy 753–218 BC*, Gabriele Esposito

presents the armies that fought these wars, in which the Roman military spirit and their famous legions were forged. He not only follows the evolution of the Roman forces from the Regal Period to the outbreak of the Second Punic War but also the forces of their neighbors, rivals and enemies. The most notable of these, the Etruscans, Samnites and the Italian Greeks are given particular attention but others, such as the Celts and Ligures of the North and the warriors of Sicily and Sardinia, are also considered. Details of the organization, weapons, equipment and tactics of each army are described, while dozens of beautiful color photos of reenactors show how these warriors looked in the field. "Once more, a beautifully illustrated book, this time starting with the story of Rome from the Regal Period to the Second Punic War. The author follows the highly successful format of his books covering the late period of the Roman Empire.—Most Highly Recommended." —Firetrench "An interesting look at all the people of the Italian era, but what really brings it to life are the countless full colour photographs of re-enactor groups in the correct armour and dress for the various tribes and regions they represent. Excellent production standards and a fascinating look at the history of early Rome." —The Armourer

#### Hellenistic Land Battles 300-167 BCE

Ancient Rome was uniquely bellicose. Her legionaries are often cited as the original professional soldiers and famed for their iron discipline, but they were also formidable individual warriors, sometimes berserks, who gloried in single combat, taking heads and despoiling their enemies. They were men who believed they were sired by a god of war, driven by the need to create and sustain heroic reputations, and who disrobed in public to display battle scars. Yet these same warriors read philosophy, wrote history, and recited poetry. *For the Glory of Rome* introduces the heroic yet utterly ruthless men who carved out the Roman Empire. The author examines the deeds of men like Siccus Dentatus, the victor of eight single combats and a hero of the common people; Decius Mus, the consul who charged into the midst of the enemy at Sentinum to devote himself to the gods of the Underworld; and the feuding centurions Pullo and Vorenus, rivals for every post and honor but bound together by their loyalty to Caesar. Ross Cowan explores the mindset of the Roman fighting men, examining their motivation, beliefs and superstitions, illuminating why they fought and died for the glory of Rome.

#### Armies of Ancient Italy, 753–218 BC

By drawing on a very large number of German sources, many of them previously unpublished, Jack Sheldon throws new light on a familiar story. In an account filled with graphic descriptions of life and death in the trenches, the author demonstrates that the dreadful losses of 1st July were a direct consequence of meticulous German planning and preparation. Although the Battle of the Somme was frequently a close-run affair, poor Allied co-ordination and persistence in attacking weakly on narrow fronts played into the hands of the German commanders, who were able to rush forward reserves, maintain the overall integrity of their defenses and so continue a successful delaying battle until the onset of winter ultimately neutralized the considerable Allied superiority in men and material.

#### For the Glory of Rome

"Exciting and vivid . . . an excellent single-volume reference for classical battles" from the author of *Greek & Roman Warfare* (HistoryNet.com). This comprehensive reference book on the battles of the ancient world covers events from the eighth century BC down to 31BC, when Octavian defeated Antony and Cleopatra at the battle of Actium. The author presents, in an exciting and vivid style, complete with battle plans and maps, all of the land and sea battles of the Greek and Roman worlds, based on the accounts by historians of the time. "A chronology of ancient battles from earliest recorded Greek history to the end of the Roman Republic . . . This is a unique resource for which there are no comparable works. It will be useful to students, scholars, and enthusiasts of war gaming." —Booklist "If you are interested in warfare of Greek and/or Roman times . . . this book should be your first port of call to decide on your next ancients project." —Avon Napoleonic Fellowship "A magnificent compilation of ancient battles from the dawn of recorded history to 31 BC . . . remarkable . . . Ancient buffs need this book." —Historical Miniatures Gaming Society

#### The Crisis of Rome

Essays exploring the role religion played in ancient Roman warfare, including destroying enemies' gods, wartime ceremonies, and live burials. Religion was integral to the conduct of war in the ancient world and the Romans were certainly no exception. No campaign was undertaken, no battle risked, without first making sacrifice to propitiate the appropriate gods (such as Mars, god of War) or consulting

oracles and omens to divine their plans. Yet the link between war and religion is an area that has been regularly overlooked by modern scholars examining the conflicts of these times. This volume addresses that omission by drawing together the work of experts from across the globe. The chapters have been carefully structured by the editors so that this wide array of scholarship combines to give a coherent, comprehensive study of the role of religion in the wars of the Roman Republic. Aspects considered in depth will include: declarations of war; evocation and taking gods away from enemies; dedications and ceremonies; the cult of the legionary eagle; the role of women in Republican warfare; omens and divination; live burials of people in times of military crisis; and the rituals of the Roman triumph. PraiseReligion & Classical Warfare: The Roman Republic "The authors take a novel approach in looking at military history of the Roman Republic in terms of the relationship between warriors and religion. The ancient world was driven to a high degree by religious belief, even to the point of commanders relying on seers to advise them on the eve of battle.—Very Highly Recommended." —Firetrench "A work of meticulous and detailed scholarship." —Midwest Book Review

### Battles of The Greek and Roman Worlds

The fall and rise of ancient Rome from more than two decades of internal conflict, as its aristocracy took up arms against each other. By the early first century BC, the Roman Republic had already carved itself a massive empire and was easily the most powerful state in the Mediterranean. Roman armies had marched victoriously over enemies far and wide, but the Roman heartland was soon to feel the tramp of armies on campaign as the Republic was convulsed by civil war and rival warlords vied for supremacy, sounding the first death knell of the Republican system. At the center of the conflict was the rivalry between Marius, victor of the Jugurthine and Northern wars, and his former subordinate, Sulla. But, as Gareth Sampson points out in this new analysis, the situation was much more complex than the traditional view portrays it and the scope of the First Civil War both wider and longer. This narrative and analysis of a critical and bloody period in Roman history will make an ideal sequel to the author's *Crisis of Rome* (and a prequel to his first book, *The Defeat of Rome*). "A very readable insight into a period of Roman history that is very important but a mystery to most people."—Firetrench

### The Roman Republic

Full of fascinating famous characters from Marius to Sulla and Pompey, this narrates and analyzes a crucial period in Rome's history. By the early first century BC, the Roman Republic had already carved itself a massive empire and was easily the most powerful state in the Mediterranean. Roman armies had marched victoriously over enemies far and wide, but the Roman heartland was soon to feel the tramp of armies on campaign as the Republic was convulsed by civil war and rival warlords vied for supremacy, sounding the first death knell of the Republican system. At the center of the conflict was the rivalry between Marius, victor of the Jugurthine and Northern wars, and his former subordinate, Sulla. But, as Gareth Sampson points out in this new analysis, the situation was much more complex than the traditional view portrays it and the scope of the First Civil War both wider and longer. This narrative and analysis of a critical and bloody period in Roman history is an ideal sequel to the author's *Crisis of Rome* (and a prequel to his first book, *The Defeat of Rome*).

### The Collapse of Rome

A "crisply written, well researched . . . superb piece of scholarship about one of the most dramatic and decisive battles in the ancient world" (*Journal of Military History*). At Zama (in what is now Tunisia) in 202 BC, the armies of two great empires clashed: the Romans under Scipio Africanus and Carthaginians, led by Hannibal. Scipio's forces would win a decisive, bloody victory that forever shifted the balance of power in the ancient world. Thereafter, Rome became the dominant civilization of the Mediterranean. Here, Brian Todd Carey recounts that battle and the grueling war that led up to it. He offers fascinating insight into the Carthaginian and Roman methods of waging war, their military organizations, equipment, and the tactics the armies employed. He also delivers an in-depth critical assessment of the contrasting qualities and leadership styles of Hannibal and Scipio, the two most celebrated commanders of their age. With vivid prose and detailed maps of the terrains of the time, *Hannibal's Last Battle* is an essential text for fans of military history and students of the classical period.

### The Collapse of Rome

"A fast-paced narrative history of the dying years of the Republic, and one grounded in the characters, events, and voices of the period." —Bryn Mawr Classical Review *Rome: Republic into Empire* looks

at the political and social reasons why Rome repeatedly descended into civil war in the early 1st century BCE and why these conflicts continued for most of the century; it describes and examines the protagonists, their military skills, their political aims and the battles they fought and lost; it discusses the consequences of each battle and how the final conflict led to a seismic change in the Roman political system with the establishment of an autocratic empire. This is not just another arid chronological list of battles, their winners and their losers. Using a wide range of literary and archaeological evidence, Paul Chrystal offers a rare insight into the wars, battles and politics of this most turbulent and consequential of ancient world centuries; in so doing, it gives us an eloquent and exciting political, military and social history of ancient Rome during one of its most cataclysmic and crucial periods, explaining why and how the civil wars led to the establishment of one of the greatest empires the world has known. "More than a list of battles, their winners and losers. We are given a complete picture of Roman and Italian society from aristocrats to peasants and slaves." —Army Rumour Service (ARRSE)

### Hannibal's Last Battle

Attempts to reconstruct the reasons why the Romans and the Carthaginians engaged in long and damaging wars with each other despite prosperous periods of alliance. Relying on ancient sources such as the accounts of Polybius, Livy, and Diodorus, the author discusses the period from the antecedents to the First Punic War of 264 B.C.E. to the war-declaration of 218 B.C.E. Arguing that the reasons for the two wars were intertwined, he contends that the outcomes of the wars differ markedly from the original aims of the great powers. Neither side, according to the author, sought war with the other, but war resulted from misunderstandings and miscalculations. Annotation copyrighted by Book News, Inc., Portland, OR

### Rome: Republic into Empire

This second edition examines all aspects of Roman history, and contains a new introduction, three new chapters and updated bibliographies.

### Unplanned Wars

Historians have long asserted that during and after the Hannibalic War, the Roman Republic's need to conscript men for long-term military service helped bring about the demise of Italy's small farms and that the misery of impoverished citizens then became fuel for the social and political conflagrations of the late republic. Nathan Rosenstein challenges this claim, showing how Rome reconciled the needs of war and agriculture throughout the middle republic. The key, Rosenstein argues, lies in recognizing the critical role of family formation. By analyzing models of families' needs for agricultural labor over their life cycles, he shows that families often had a surplus of manpower to meet the demands of military conscription. Did, then, Roman imperialism play any role in the social crisis of the later second century B.C.? Rosenstein argues that Roman warfare had critical demographic consequences that have gone unrecognized by previous historians: heavy military mortality paradoxically helped sustain a dramatic increase in the birthrate, ultimately leading to overpopulation and landlessness.

### The Cambridge Companion to the Roman Republic

The Pax Romana is famous for having provided a remarkable period of peace and stability, rarely seen before or since. Yet the Romans were first and foremost conquerors, imperialists who took by force a vast empire stretching from the Euphrates in the east to the Atlantic coast in the west. Their peace meant Roman victory and was brought about by strength and dominance rather than co-existence with neighbours. The Romans were aggressive and ruthless, and during the creation of their empire millions died or were enslaved. But the Pax Romana was real, not merely the boast of emperors, and some of the regions in the Empire have never again lived for so many generations free from major wars. So what exactly was the Pax Romana and what did it mean for the people who found themselves brought under Roman rule? Acclaimed historian Adrian Goldsworthy tells the story of the creation of the Empire, revealing how and why the Romans came to control so much of the world and asking whether the favourable image of the Roman peace is a true one. He chronicles the many rebellions by the conquered, and describes why these broke out and why most failed. At the same time, he explains that hostility was only one reaction to the arrival of Rome, and from the start there was alliance, collaboration and even enthusiasm for joining the invaders, all of which increased as resistance movements faded away. A ground-breaking and comprehensive history of the Roman Peace, Pax Romana takes the reader on a journey from the bloody conquests of an aggressive Republic through the age of Caesar

and Augustus to the golden age of peace and prosperity under diligent emperors like Marcus Aurelius, offering a balanced and nuanced reappraisal of life in the Roman Empire.

### Rome at War

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

### Pax Romana

In 146 BC, the armies of the Roman Republic destroyed Carthage and Corinth, two of the most spectacular cities of the ancient Mediterranean world. It was a display of ruthlessness so terrible that it shocked contemporaries, leaving behind deep scars and palpable historical traumas. Yet these twin destructions were not so extraordinary in the long annals of Roman warfare. In *Spare No One*, Gabriel Baker convincingly shows that mass violence was vital to Roman military operations. Indeed, in virtually every war they fought during the third and second centuries BC, the Roman legions killed and enslaved populations, executed prisoners, and put cities to the torch. This powerful book reveals that these violent acts were not normally the handiwork of frenzied soldiers run amok, nor were they spontaneous outbursts of uncontrolled savagery. On the contrary—and more troublingly—Roman commanders deliberately used these brutal strategies to achieve their most critical military objectives and political goals. Bringing long-overdue attention to this little-known aspect of Roman history, Baker paints a fuller, albeit darker, picture of Roman warfare. He ultimately demonstrates that the atrocities of the twentieth and twenty-first centuries have deep historical precedents. Casting a fresh light on the strategic use of total war in the ancient world, he reminds us that terror and mass violence could be the rational policies of men and states long before the modern age.

### The Military System of the Romans (1887)
