From the New York Times and USA Today Bestselling author, Nichole Chase, comes THE ACCIDENTAL ASSASSIN. Ava McKenzie is a creature of habit. Life is passing her by and she has nothing to show for it. She's had the same job since she started college, she orders the same dish every time she goes to her favorite restaurant, and only reads books from authors she knows. There is nothing new or surprising in her life... until her best friend marries a man from London. When her newlywed friend asks her to house-sit while she honeymoon, Ava jumps at the chance. She thinks this could be the very thing she needs to shake up her life. Ava throws herself head first into her new lifestyle; she wants to try everything, go everywhere, and never get stuck in a rut again. Of course, offering a man in a car garage hadn't been one of the things on her list to try. Owen Walker spends every day in a new place with a new case. As one of the most renowned assassins in the world, he has his choice of marks--and he's never failed in a mission. When a new hit takes him back to his hometown, he looks forward to spending time somewhere familiar. What he isn't expecting is to help an attractive, confused American woman find out how she's ended up on a hit man's list. As Ava and Owen dodge bullets, will they be able to escape their undeniable attraction to each other? Or will all of that chemistry blow up in a shower of hot and dangerous sparks?

The Accidental Assassin

A misguided hapless loser with questionable morals has an accident and comes to the attention of a ruthless serial killer. The seedy underground community of society is unaware they are being targeted and groomed for attention as part of a national murder spree by a predator with a kinky outlook. However, the killer is being tracked by an investigative journalist, a dedicated detective nearing the end of his career, and an ambitious, young, uniformed police officer. The Accidental Assassin is a very dark comedy thriller that will have you laughing and cringing in equal measures as it races towards its climax.

Accidental Assassin

This is the first of three books describing the progress of Nshila Ileloka from her birth in a remote African village to success, status and power in England. An accidental event causes the child Nshila to be befriended by the tribal witchdoctor and from him she gains occult skills. At secondary school she achieves minor successes and is then recalled by her tribe to deal with an outbreak of cattle-theft. The thief is identified and meets a curious death. She wins a scholarship to The London School of Economics, gaining a 1st Class Degree. She also achieves an MBA from The Open University. During this time she studies traditional European witchcraft and learns how to mix technology with the magic of both Africa and Europe. She is able to make things happen in a manner that is not detectable. Rumours about her skill provoke enquiries from wronged persons who seek retribution against the wrong-doer. She is gradually drawn into the role of consultant assassin and removes various evil-doers. She is never quite sure whether witchcraft or science makes the greater contribution to her success. She is extremely selective, targeting only the most villainous people. After gaining her MBA, she purchases a business that deals with weather forecasting and changes the name to The Rain Consultancy. This business is entirely legitimate and acts as a cover for less regular activity. ACCIDENTAL ASSASSIN covers her time with the witchdoctor, her adventures at school, and her time at LSE. Patrick Quinn and Mary Zonde are brought together by a love potion. The cattle-thief is eliminated. A bent policeman dies an explosive death in Trafalgar Square. A fraudster and asset-stripper falls to his death from a ruined castle in Kent. HE ONLY DIED TWICE describes a request reaching Nshila for the removal of an 'above suspicion' Member of Parliament. He is known to a branch of the security services to be a slaver - persuading young female athletes to attend his training camp in Spain and then selling them to rich customers in the Middle East. The task is complicated by an assignment from another customer to remove an equally evil villain. Events show that this is actually the same man under a different identity. To satisfy the two clients, two bodies must be produced. The story includes an under-cover trip back to her birthplace to recover magical charms and the problems of a disgraced government department in finding the money due for the death. In THE EAGER APPRENTICE the target is a foreign prince who is regarded as a reliable friend and ally by all the British establishment. Only one lowly person, who will never be believed, knows that this man is a terrorist master-mind. Discrete removal is the only option and Nshila is the operator contacted. She has accepted as apprentice a keen but erratic young man who makes premature and disastrous attempts to eliminate the target. His activities draw into the plot a young lady of great talent who has recently been ordained into the Church of England and is unscrupulous in her determination to become a Bishop. Nshila finally organises her team well enough to achieve success and obtain a rather extraordinary reward.

Accidental Assassin

What does a wealthy, very beautiful woman do when her happiness is marred by a cheating, profligate husband? If her name's Trudy Grant, she turns to www.accidentalassassin.com. She thought the money was well spent and she was encouraged that the service was guaranteed and untraceable back to her. The police however have other ideas. Inspector Mickey McGuire knows she's guilty, but how can he prove it? How long can she keep ahead of the law? What sneaky traps will the police set for her? Will her new lover continue to provide her with pleasures she never thought possible. A rollicking tale of lust, murder and lots of fun.

Mortal Error

Another conspiracy theory identifies the two men who, operating separately, allegedly shot President Kennedy in the "Crime of the Century." Reprint.

Conscience of a Conspiracy Theorist

Conscience of a Conspiracy Theorist seeks to show how governmental deceit and (corporate-controlled) media silence have combined to keep the public misinformed about shocking events in American history. In the process, skeptics who question the "official accounts" are labeled "conspiracy theorists," a pejorative term that carries with it suggestions of foolishness and a lack of patriotism. The book focuses on critical moments in American history, with particular focus on the Kennedy assassination, 9/11, and the 2000 and 2004 presidential elections. It exposes flaws in the conventional wisdom in each case, in a non-partisan manner that separates political ideology from an objective analysis of the facts. The author's style is at once objective and academic, utilizing historical background information

(often neglected by other historians and the media) to illuminate current circumstances. The book's primary value to readers and libraries lies in its willingness to go where other authors, most major publishers, and the mainstream media refuse to go...into direct criticism of government leaders and their cronies. The term "false-flag event" isn't well understood, but it has been a valuable tool for corrupt leaders and tyrants since the first century AD. Until the reader understands what a false-flag event is, he or she is incapable of recognizing the difference between a conspiracy theorist and an honest skeptic.

Case Closed

Pulitzer Prize Finalist: "By far the most lucid and compelling account . . . of what probably did happen in Dallas—and what almost certainly did not." —The New York Times Book Review The Kennedy assassination has reverberated for five decades, with tales of secret plots, multiple killers, and government cabals often overshadowing the event itself. As Gerald Posner writes, "Fifty years after the assassination, the biggest casualty has been the truth." In this first-ever digital edition of his classic work, updated with a special comment for the fiftieth anniversary, Posner lays to rest all of the convoluted conspiracy theories—concerning the mafia, a second shooter, and the CIA—that have obscured over the decades what really happened in Dealey Plaza on November 22, 1963. Drawing from official sources and dozens of interviews, and filled with powerful historical detail, Case Closed is a vivid and straightforward account that stands as one of the most authoritative books on the assassination of John F. Kennedy.

Let's Pretend This Never Happened

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Denial of Justice

Why is What's My Line? TV star and Pulitzer-Prize-nominated investigative reporter Dorothy Kilgallen one of the most feared journalists in history? Why has her threatened exposure of the truth about the JFK assassination triggered a cover-up by at least four government agencies and resulted in abuse of power at the highest levels? *Denial of Justice*—written in the spirit of bestselling author Mark Shaw's gripping true crime murder mystery, *The Reporter Who Knew Too Much*—tells the inside story of why Kilgallen was such a threat leading up to her unsolved murder in 1965. Shaw includes facts that have never before been published, including eyewitness accounts of the underbelly of Kilgallen's private life, revealing statements by family members convinced she was murdered, and shocking new information about Jack Ruby's part in the JFK assassination that only Kilgallen knew about, causing her to be marked for danger. Peppered with additional evidence signaling the potential motives of Kilgallen's arch enemies J. Edgar Hoover, mobster Carlos Marcello, Frank Sinatra, her husband Richard, and her last lover, *Denial of Justice* adds the final chapter to the story behind why the famous journalist was killed, with no investigation to follow despite a staged death scene. More information can be found at www.thedorothykilgallenstory.com.

Marina and Lee

The inside story of Lee Harvey Oswald's path to killing John F. Kennedy. Reissued to mark the 50th anniversary of the Kennedy assassination, *Marina and Lee* is an indispensable account of one of America's most traumatic events, and a classic work of narrative history. In her meticulous, at times even moment by moment, account of Oswald's progress toward the assassination, Priscilla Johnson McMillan takes us inside Oswald's fevered mind and his manic marriage. When Marina, only a few weeks after giving birth to their second child, hears of Kennedy's death and discovers that Lee's rifle is missing from the garage where it was stored, she knows that her husband has killed the President.

McMillan came to the story with a unique knowledge of the two main characters. In the 1950s she had worked for Kennedy and had known him well for a time. Later, working in Moscow as a journalist, she interviewed Lee Harvey Oswald during his attempt to defect to the Soviet Union. When she heard his name again on November 22, 1963, she said, "My God! I know that boy!" *Marina and Lee* was written with the complete and exclusive cooperation of Oswald's Russian-born wife, Marina Prusakova, whom McMillan debriefed for seven months in the immediate aftermath of the President's assassination and her husband's nationally televised execution at the hands of Jack Ruby. The truth is far more compelling, and unsettling, than the most imaginative conspiracy theory. *Marina and Lee* is a human drama that is outrageous, heartbreaking, tragic, fascinating. . . and real. From the Trade Paperback edition.

JFK and the Unspeakable

THE ACCLAIMED BOOK, NOW IN PAPERBACK, with a reading group guide and a new afterword by the author. At the height of the Cold War, JFK risked committing the greatest crime in human history: starting a nuclear war. Horrified by the specter of nuclear annihilation, Kennedy gradually turned away from his long-held Cold Warrior beliefs and toward a policy of lasting peace. But to the military and intelligence agencies in the United States, who were committed to winning the Cold War at any cost, Kennedy's change of heart was a direct threat to their power and influence. Once these dark "Unspeakable" forces recognized that Kennedy's interests were in direct opposition to their own, they tagged him as a dangerous traitor, plotted his assassination, and orchestrated the subsequent cover-up. Douglass takes readers into the Oval Office during the tense days of the Cuban Missile Crisis, along on the strange journey of Lee Harvey Oswald and his shadowy handlers, and to the winding road in Dallas where an ambush awaited the President's motorcade. As Douglass convincingly documents, at every step along the way these forces of the Unspeakable were present, moving people like pawns on a chessboard to promote a dangerous and deadly agenda.

Columbia Pictures

Drawing on previously untapped archival materials including letters, interviews, and more, Bernard F. Dick traces the history of Columbia Pictures, from its beginnings as the CBC Film Sales Company, through the regimes of Harry Cohn and his successors, and ending with a vivid portrait of today's corporate Hollywood. The book offers unique perspectives on the careers of Rita Hayworth and Judy Holliday, a discussion of Columbia's unique brands of screwball comedy and film noir, and analyses of such classics as *The Awful Truth*, *Born Yesterday*, and *From Here to Eternity*. Following the author's highly readable studio chronicle are fourteen original essays by leading film scholars that follow Columbia's emergence from Poverty Row status to world class, and the stars, films, genres, writers, producers, and directors responsible for its transformation. A new essay on Quentin Tarantino's *Once Upon a Time...in Hollywood* rounds out the collection and brings this seminal studio history into the 21st century. Amply illustrated with film stills and photos of stars and studio heads, *Columbia Pictures* is the first book to integrate history with criticism of a single studio, and is ideal for film lovers and scholars alike.

Mornings in Jenin

Palestine, 1948. A mother clutches her six-month-old son as Israeli soldiers march through the village of Ein Hod. In a split second, her son is snatched from her arms and the fate of the Abulheja family is changed forever. Forced into a refugee camp in Jenin and exiled from the ancient village that is their lifeblood, the family struggles to rebuild their world. Their stories unfold through the eyes of the youngest sibling, Amal, the daughter born in the camp who will eventually find herself alone in the United States; the eldest son who loses everything in the struggle for freedom; the stolen son who grows up as an Israeli, becoming an enemy soldier to his own brother. *Mornings in Jenin* is a devastating novel of love and loss, war and oppression, and heartbreak and hope, spanning five countries and four generations of one of the most intractable conflicts of our lifetime.

Remote Control

An epic manhunt begins when Masaharu Aoyagi, an unemployed delivery truck driver, is accused of the assassination of Sadoyoshi Kaneda, the youngest prime minister in Japanese history.

The Reporter Who Knew Too Much

Was journalist Dorothy Kilgallen murdered for writing a tell-all book about the JFK assassination? Or was her death from an overdose of barbiturates combined with alcohol, as reported? Shaw believes Kilgallen's death has always been suspect, and unfolds a list of suspects ranging from Frank Sinatra to a Mafia don, while speculating on the possibilities of reopening the case.

Me & Lee

Judyth Vary was once a promising science student who dreamed of finding a cure for cancer; this exposé is her account of how she strayed from a path of mainstream scholarship at the University of Florida to a life of espionage in New Orleans with Lee Harvey Oswald. In her narrative she offers extensive documentation on how she came to be a cancer expert at such a young age, the personalities who urged her to relocate to New Orleans, and what led to her involvement in the development of a biological weapon that Oswald was to smuggle into Cuba to eliminate Fidel Castro. Details on what she knew of Kennedy's impending assassination, her conversations with Oswald as late as two days before the killing, and her belief that Oswald was a deep-cover intelligence agent who was framed for an assassination he was actually trying to prevent, are also revealed.

Survivor's Guilt

Painstakingly researched by an authority on the history of the Secret Service and based on primary, firsthand accounts from more than 80 former agents, White House aides, and family members, this is the definitive account of what went wrong with John F. Kennedy's security detail on the day he was assassinated. The work provides a detailed look at how JFK could and should have been protected and debunks numerous fraudulent notions that persist about the day in question, including that JFK ordered agents off the rear of his limousine; demanded the removal of the bubble top that covered the vehicle; and was difficult to protect and somehow, directly or indirectly, made his own tragic death easier for an assassin or assassins. This book also thoroughly investigates the threats on the president's life before traveling to Texas; the presence of unauthorized Secret Service agents in Dealey Plaza, the site of the assassination; the failure of the Secret Service in monitoring and securing the surrounding buildings, overhangs, and rooftops; and the surprising conspiratorial beliefs of several former agents. An important addition to the canon of works on JFK and his assassination, this study sheds light on the gross negligence and, in some cases, seeming culpability, of those sworn to protect the president.

Hal Wallis

Hal Wallis (1898-1986) might not be as well known as David O. Selznick or Samuel Goldwyn, but the films he produced—*Casablanca*, *Jezebel*, *Now, Voyager*, *The Life of Emile Zola*, *Becket*, *True Grit*, and many other classics (as well as scores of Elvis movies)—have certainly endured. As producer of numerous films, Wallis made an indelible mark on the course of America's film industry, but his contributions are often overlooked. Bernard Dick offers the first comprehensive assessment of the producer's incredible career. A former office boy and salesman, Wallis first engaged with the film business as the manager of a Los Angeles movie theater in 1922. He attracted the notice of the Warner brothers, who hired him as a publicity assistant. Within three months he was director of the department, and appointments to studio manager and production executive quickly followed. Wallis went on to oversee dozens of productions and formed his own production company in 1944. Dick draws on numerous sources such as Wallis's personal production files and exclusive interviews with many of his contemporaries to finally tell the full story of his illustrious career. Dick combines his knowledge of behind-the-scenes Hollywood with fascinating anecdotes to create a portrait of one of Hollywood's early power players.

Seduction In Death

She was twenty-three and already in love. She was certain he'd be handsome. She would be dead before midnight. Bryna Bankhead carefully dressed for her date with the wonderful Dante, a man she's only ever spoken to online. By the end of the night, rose petals are scattered, poetry has been quoted - and Bryna has been murdered. What starts as a mistake, becomes a terrifying game, as two young men pursue their poisonous obsession with an illegal drug and an insatiable desire. As more girls are taken, homicide lieutenant Eve Dallas and her roguish husband Roarke must think fast and act even faster. And then Eve discovers the secret to their destructive past and a deadly trap is set . . .

Target JFK

A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

Dr. Strange Beard

Everyone in Green Valley, Tennessee knows that the six bearded Winston brothers have been imbued with an unfair share of charm and charisma... and are prone to mischief. Dr. Strange Beard, the fifth book in the Winston Brothers series, from USA TODAY bestselling author Penny Reid publishes in July 2018!

TEN X MURDERS FOR THE MIND

This collection of crime and detection stories sets out various complex crimes and the ingenuity of Detective Inspector Samsher Brahma and his team, in solving them. There are murders of rage, vengeance, and greed. A killer creates a fictitious persona, poisons are used innovatively, and exceptional alibis are crafted through TVs and voice mimics. Successions of enormous wealth spawn unique crime motives, and mobile phones make a one-of-a-kind background for butchery. Meandering confessions, detections through "timings of crimes," a schizophrenic man's murder, a mythical werewolf's killings, and uncovering an assassin in subtle supernatural circumstances, round up these amazing stories. Every story has its own inimitable experience of use of intellectual efforts and meticulous investigation.

Four Days in November: The Assassination of President John F. Kennedy

"A book for the ages." —Los Angeles Times Book Review Four Days in November is an extraordinarily exciting, precise, and definitive narrative of the assassination of President John F. Kennedy on November 22, 1963, by Lee Harvey Oswald. It is drawn from Reclaiming History: The Assassination of President John F. Kennedy, a monumental and historic account of the event and all the conspiracy theories it spawned, by Vincent Bugliosi, legendary prosecutor of Charles Manson and author of Helter Skelter. For general readers, the carefully documented account presented in Four Days is utterly persuasive: Oswald did it and he acted alone.

Knowledge Goes Pop

A voice on late night radio tells you that a fast food joint injects its food with drugs that make men impotent. A colleague asks if you think the FBI was in on 9/11. An alien abductee on the Internet claims extra-terrestrials have planted a microchip in her left buttock. 'Julia Roberts in Porn Scandal' shouts the front page of a gossip mag. A spiritual healer claims he can cure chronic fatigue syndrome with the energizing power of crystals . . . What do you believe? Knowledge Goes Pop examines the popular knowledges that saturate our everyday experience. We make this information and then it shapes the way we see the world. How valid is it when compared to official knowledge and why does such (mis)information cause so much institutional anxiety? Knowledge Goes Pop examines the range of knowledge, from conspiracy theory to plain gossip, and its role and impact in our culture.

Six Seconds in Dallas

Working with thousands of previously unreleased documents and drawing on more than one thousand interviews, with many witnesses speaking out for the first time, Joan Mellen revisits the investigation of New Orleans district attorney Jim Garrison, the only public official to have indicted, in 1969, a suspect in President John F. Kennedy's murder. Garrison began by exposing the contradictions in the Warren Report, which concluded that Lee Harvey Oswald was an unstable pro-Castro Marxist who acted alone in killing Kennedy. "A Farewell to Justice" reveals that Oswald, no Marxist, was in fact working with both the FBI and the CIA, as well as with U.S. Customs, and that the attempts to sabotage Garrison's investigation reached the highest levels of the U.S. government. Garrison interviewed various individuals involved in the assassination, ranging from Clay Shaw and CIA contract employee David Ferrie to a Marine cohort of Oswald named Kerry Thornley, who at the very least was a Defense Intelligence Agency asset. Garrison's suspects included CIA-sponsored soldiers of fortune enlisted in assassination attempts against Fidel Castro, an anti-Castro Cuban asset, and a young runner for the conspirators, interviewed here for the first time by the author. Building upon Garrison's effort, Mellen uncovers decisive new evidence and clearly establishes the intelligence agencies' roles

in both a president's assassination and its cover-up, set in motion well before the actual events of November 22, 1963."

A Farewell to Justice

Spanning 25 years of serious writing on hip-hop by noted scholars and mainstream journalists, this comprehensive anthology includes observations and critiques on groundbreaking hip-hop recordings.

That's the Joint!

"MISHA I can't help but smile at the lyrics in her letter. She misses me. In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other teacher paired me up with her student, Ryen. My teacher, believing Ryen was a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything. The best take-out pizza. Android vs. iPhone. Whether or not Eminem is the greatest rapper ever... And that was the start. For the next seven years, it was us. Her letters are always on black paper with silver writing. Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules. No social media, no phone numbers, no pictures. We had a good thing going. Why ruin it? Until I run across a photo of a girl online. Name's Ryen, loves Gallo's pizza, and worships her iPhone. What are the chances? F*ck it. I need to meet her. I just don't expect to hate what I find. RYEN He hasn't written in three months. Something's wrong. Did he die? Get arrested? Knowing Misha, neither would be a stretch. Without him around, I'm going crazy. I need to know someone is listening. It's my own fault. I should've gotten his phone number or picture or something. He could be gone forever. Or right under my nose, and I wouldn't even know it. *Punk 57 is a stand alone New Adult romance. It is suitable for ages 18+."--Amazon.com

Punk 57

When Billy Twillig, a genius adolescent, wins the first Nobel Prize ever to be given in mathematics, he is recruited to live and work in the company of thirty Nobel laureates in obscurity underground. There, away from the rest of the world, this panel of estranged, demented and lovable scientists work together on a secret scientific project: deciphering a mysterious transmission received from outer space, from just near Ratner's Star. Written in Don DeLillo's characteristically mesmerizing prose, *Ratner's Star* is a brilliantly observed, funny and deeply thought-provoking novel which explores the mysterious, mind-blowing, mathematical world of the future.

Ratner's Star

JFK to 911 is already a global phenomenon, having began as a Youtube video which achieved over a billion hits by becoming the first documentary in human history to untangle all the establishment lies and reveal the entire truth about the Kennedy Assassination and 911. These disclosures so frightened the powers-that-be that President Trump and the Queen of England took the joint decision to ban it altogether, so that if you read this book, you will be learning the most cardinal secrets which your government would much rather you did not know. Nearly all intelligent people these days are wary of what we are being told by the mainstream media, but fewer are aware that the very notion of 'fake news' began with the words on these pages, and that all government policy in recent times has been an ongoing effort to hold back the increasing enlightenment these words have inspired. Legions of people have taken the trouble to go online so that they could tell the world about how learning that absolutely everything is a rich man's trick—the justice system, the education system, the economic system, and most importantly, the media. Francis Richard Conolly is extremely hopeful that the people who have made a movie which he originally gave them for free such a central part of their existence will now buy this book in order to build the revenues which he needs to make the sequel which everyone wants to see.

JFK to 911 Everything Is A Rich Man's Trick

Fresh takes on key questions in black performance and black popular culture, by leading artists, academics, and critics

Black Cultural Traffic

Conclusive evidence refuting the Warren Commission Report is presented in this authoritative volume containing the most comprehensive photographic record ever assembled of all events surrounding the JFK assassination. Now in paperback, with more than 650 color and quadratone photos.

The Killing of a President

Malcolm X's blazing, legendary autobiography, completed shortly before his assassination in 1965, depicts a remarkable life: a child born into rage and despair, who turned to street-hustling and cocaine in the Harlem ghetto, followed by prison, where he converted to the Black Muslims and honed the energy and brilliance that made him one of the most important political figures of his time - and an icon in ours. It also charts the spiritual journey that took him beyond militancy, and led to his murder, a powerful story of transformation, redemption and betrayal. Vilified by his critics as an anti-white demagogue, Malcolm X gave a voice to unheard African-Americans, bringing them pride, hope and fearlessness, and remains an inspirational and controversial figure today.

The Autobiography of Malcolm X

The Cold War ushered in a time of secrecy—and willing media cooperation to keep those secrets. But even after winning that war, the vault of secrets remains firmly locked, especially surrounding John F. Kennedy's murder. Even for those who fundamentally oppose the current presidential administration, notions of a national security state and "fake news" must be examined to maintain a functional democracy. This book explains the rapid decline in confidence in government that started after the assassination of JFK. The mainstream media failed to go beyond repeating the official story, and by 1991 they, along with academe and the government, had stopped investigating altogether. It was filmmaker Oliver Stone whose film fueled public outrage and led to the JFK Act to declassify all of the remaining documents. Almost four million pages of documents were then released—that even Congress had not yet seen. The JFK Act stated that all files must be released by October 2017, yet thousands are still withheld on the grounds of national security. This volume examines the tight alliances that have allowed this cover-up for more than 50 years. President Kennedy declared in October 1963 that "men who create power make an indispensable contribution to a nation's greatness, but the men who question power make a contribution just as indispensable, especially when they are disinterested, for they determine whether we use power or power uses us."

Burying the Lead

The Washington Post hails Greil Marcus as our greatest cultural critic. Writing in the London Review of Books, D. D. Guttenplan calls him probably the most astute critic of American popular culture since Edmund Wilson. For nearly thirty years, he has written a remarkable column that has migrated from the Village Voice to Artforum, Salon, City Pages, Interview, and The Believer and currently appears in the Barnes & Noble Review. It has been a laboratory where Marcus has fearlessly explored and wittily dissected an enormous variety of cultural artifacts, from songs to books to movies to advertisements, teasing out from the welter of everyday objects what amounts to a de facto theory of cultural transmission. Published to complement the paperback edition of *The History of Rock & Roll in Ten Songs*, *Real Life Rock* reveals the critic in full: direct, erudite, funny, fierce, vivid, astute, uninhibited, and possessing an unerring instinct for art and fraud. The result is an indispensable volume packed with startling arguments and casual brilliance.

Real Life Rock

Despite an avalanche of disinfo being dumped by the major media over the decades, the assassination of JFK has finally unraveled. A renegade CIA station working with a Sicilian secret society orchestrated the hit, but their participation would never have been so massively covered-up unless they were working for elements higher up the chain-of-command. Whether you are new to this case, or a longtime researcher, you will find these penetrating essays both entertaining and enlightening.

The Social Media Bible

How was American culture disseminated into Britain? Why did many British citizens embrace American customs? And what picture did they form of American society and politics? This engaging and wide-ranging history explores these and other questions about the U.S.'s cultural and political influence on British society in the post-World War II period.

Killing Kennedy

As heard on BBC Woman's Hour From the author of the book behind the blockbuster movie Slumdog Millionaire, a brilliant novel about life changing in an instant. In life you never get what you deserve: you get what you negotiate... What would you do if, out of the blue, a billionaire industrialist decided to make you the CEO of his company? No prior business experience necessary. There is only one catch: you need to pass seven tests from the 'textbook of life'. This is the offer made to Sapna Sinha, an ordinary salesgirl in an electronics boutique in downtown Delhi, by Vinay Mohan Acharya, one of India's richest men. Thus begins the most challenging journey of Sapna's life, one that will test her character, her courage and her capabilities. Along the way she encounters a host of memorable personalities, from a vain Bollywood superstar to a kleptomaniac Gandhian. At stake is a business empire worth ten billion dollars, and the future she has always dreamt of. But are the seven tests for real or is Acharya playing a deeper game, one driven by a perverse fantasy? From the acclaimed author of Slumdog Millionaire, one of the biggest films of the decade, comes this compelling, suspenseful tale of the power of dreams, the lure of money and the universal need to know who we are. Praise for The Accidental Apprentice: 'It's easy to forget that before it was retitled for Hollywood, Slumdog Millionaire was a novel called Q&A, which makes its author, Vikas Swarup, probably the most successful Indian author you've never heard of.... Gripping stuff... Perhaps The Accidental Apprentice is awaiting its Danny Boyle' The Times Praise for Q&A/Slumdog Millionaire 'A colourful portrait of Indian society is painted with remarkable lightness and wit' Sunday Telegraph 'Absorbing and richly entertaining reading' The Times

America in the British Imagination

Former Director of Central Intelligence R. James Woolsey and former Romanian acting spy chief Lt. General Ion Mihai Pacepa, who was granted political asylum in the U.S. in 1978, describe why Russia remains an extremely dangerous force in the world, and they finally and definitively put to rest the question of who killed President Kennedy on November 22, 1963. All evidence points to the fact that the assassination—carried out by Lee Harvey Oswald—was ordered by Soviet Premier Nikita Khrushchev, acting through what was essentially the Russian leader's personal army, the KGB (now known as the FSB). This evidence, which is codified as most things in foreign intelligence are, has never before been jointly decoded by a top U.S. foreign intelligence leader and a former Soviet Bloc spy chief familiar with KGB patterns and codes. Meanwhile, dozens of conspiracy theorists have written books about the JFK assassination during the past fifty-six years. Most of these theories blame America and were largely triggered by the KGB disinformation campaign implemented in the intense effort to remove Russia's own fingerprints that blamed in turn Lyndon Johnson, the CIA, secretive groups of American oilmen, Howard Hughes, Fidel Castro, and the Mafia. Russian propaganda sowed hatred and contempt for the U.S. quite effectively, and its operations have morphed into many forms, including the recruitment of global terror groups and the backing of enemy nation-states. Yet it was the JFK assassination, with its explosive aftermath of false conspiracy theories, that set the model for blaming America first.
