How do you 'recharge your batteries'?

Is there anything you want to include in your work that you haven't found a place for yet?

Is there a spiritual dimension to the work of writing, for you?

This book's unique illustrated and interactive format is designed to give you instant access to the ancient art of palmistry. As you answer a series of simple questions, you'll discover how easy it really is—even the novice can begin reading hands immediately! You'll learn how to interpret the length of the palm and fingers, the four hand types, thumbs, marks on the fingers, the lines, fingernails, the mounts, timing in the palm, and even the meaning of rings. Palmistry Quick & Easy also includes information not found in other palmistry books. Notes for lovers, parents, managers, and astrologers will add depth and additional insights into the important relationships in your life. Without saying a word, your hands speak volumes about your personality. For example, the shape and size of your hand can help you gain insight into your strengths and weaknesses. Do you have a long palm with long, slender fingers? If so, you have a water hand, which means you are a sensitive, sympathetic, and intuitive person who probably relies on emotions to make decisions. You may have to be careful of being overly self-critical. Do you have a short palm with short fingers? Then you've got an earth hand, and you are practical, reliable, and productive, although you may have to watch out for becoming too single-minded or authoritarian. Palmistry is also fun—in any social gathering, mention that you read palms and you'll soon have a crowd of people eager to find out more about themselves. Palmistry Quick & Easy is just that: quick and easy. With its detailed question-and-answer format, you'll gain a deeper understanding of yourself and the people around you—just by listening to what their hands have to say.

"One of the best, most practical guides for learning this ancient divination technique that's ever hit the market. THIS BOOK IS A MUST!" - Craig Browning In his new book, 'Speed Learning ~ Palm Readings In Your Own Words', Julian Moore teaches the basics of palmistry using proven techniques which mean that you could be reading palms in less than 48 hours! This ebook and ten accompanying FLASH CARDS can get you up to speed quicker than you ever thought imaginable, while still creating your own style and being true to yourself without having to pretend that you're a great showman or anything other than yourself. 'Speed Learning ~ Palm Readings In Your Own Words' shows you how to give REAL readings that CONNECT with people. Most people who decide to learn palmistry are easily put off when they first pick up a palmistry book, there's so much information and more often than not, no clear description of even what ORDER to read the different elements of the hand in. This is not like those other books. It teaches you a step-by-step way of reading people's palms that's almost impossible to forget, and as it encourages you to create YOUR OWN way of describing what the lines and fingers mean, the speed of learning is greatly increased. You're not just learning 'parrot style', you're creating your OWN versions of how to talk about the meanings of the hand, which makes them entirely memorable! REVIEWS "No hype...just plain good! You can't go wrong if you just DO what Julian describes. I've always shied away from palmistry because I thought the system was too complicated. Julian has changed all that. And, the memory cues are an added bonus. It just can't get any easier." - Nicholas "After reading Julian's book, and going through the flash cards a couple of times, I have a practical knowledge of palm reading that I didn't have 48 hours ago. My progress is clear and tangible. Today, I was able to improvise a palm reading session with one of my regular clients, and it went very well. I'm excited! That's why I'm writing this review, hoping that some of you also take advantage of this beautiful tool that Julian is sharing with us." - Enrique Enriquez - member of Kenton Knepper's S.E.C.R.E.T. school and co-author of the groundbreaking book 'Mind Reading' "A very useful tool for both learning and reviewing palmistry basics. For learning you have taken the concept of flash cards

and made the cue cards much more of a memory exercise; thereby, challenging the mind to create rather than just repeat. For the pro you have given some interesting slants on certain traits that add further dimension and depth to a reading. The cards provide an excellent review tool for all practicing palmists as it allows them to review traits and characteristics that may not appear commonly in their practice." - Charles Green & Eugene Bourgal "An excellently laid out summation of the essence of palmistry, designed to teach you as you go along. I can certainly see how one can get this today and start giving mini-readings tomorrow night. Better yet, learn it all easily in a week and give real readings and be able to answer questions. This book actually teaches easily, speedily the essence of palmistry. Nice job. I'd recommend this to anyone starting out in the field. Well worth the money." - Tom Jorgenson

Palmistry

Palmistry is the cryptic code of life. A soul takes birth with his/her manual of destiny written on the hand. What an intriguing thought! Though we do not remember our past births, probably due to karmic amnesia, our brains store this information, in addition to the blueprint of our present lives. According to proven scientific theory, nerves carry messages from the brain to the hands. Palmistry believes that the nerves also carry the cryptic code of our destiny from the brain to the hands. Palmistry can trace its roots back to ancient India. The first section of this volume tells us how to interpret lines and signs on the palm using Hindu palmistry. Some of the ancient signs that are included here, appear for the first time in any book published on the subject. The second section is devoted to outlining the destiny paths of the rich and famous: Barack Obama, Vladimir Putin, Albert Einstein, Sonia Gandhi, Michael Jackson, Prince Charles, Nicole Kidman, Benazir Bhutto and Hillary Clinton. This book includes spiritual messages to help us understand the larger picture and move towards peace and happiness in the journey of life.

If you have a deep interest in learning about personality characteristics as well as the past and future of a person, learn to read palms. Palmistry has been around for centuries and it is practiced in some form or the other in almost all parts of the world. Palmistry is also known as chiromancy. The word has been derived from the sobriquet of a pivotal figure in palm reading, Cheiro (real name: Irish William John Warner). Cheiro evaluated the person's character and gained insights about his future life just by reading the various lines and mounts of the palm, the shape and size of the hands and fingers, the texture and color of the skin, the flexibility of the hand, and various other features. In this book, Katrina Hazzard-Donald explores African Americans' experience and practice of the herbal, healing folk belief tradition known as Hoodoo. Working against conventional scholarship, Hazzard-Donald argues that Hoodoo emerged first in three distinct regions she calls "regional Hoodoo clusters" and that after the turn of the nineteenth century, Hoodoo took on a national rather than regional profile. The first interdisciplinary examination to incorporate a full glossary of Hoodoo culture, *Mojo Workin': The Old African American Hoodoo System* lays out the movement of Hoodoo against a series

of watershed changes in the American cultural landscape. Throughout, Hazzard-Donald distinguishes between "Old tradition Black Belt Hoodoo" and commercially marketed forms that have been controlled, modified, and often fabricated by outsiders; this study focuses on the hidden system operating almost exclusively among African Americans in the Black spiritual underground.
