Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

How Our Laws are Made

Regional organizations play an increasingly important role in strengthening and upholding the rule of law. Regional organizations are also increasingly seeking to strengthen constitutional governance in their member states by developing regulatory frameworks that reject and sanction unconstitutional transfers of power and attempts to remain in power unconstitutionally. This publication presents and discusses the initiatives and actions in the field of rule of law and constitution building by regional organizations. It also highlights their achievements, their limitations and the challenges they face, and puts forward policy recommendations for consideration.

Enactment of a Law

This open access collection examines how higher education responds to the demands of the automation economy and the fourth industrial revolution. Considering significant trends in how people are learning, coupled with the ways in which different higher education institutions and education stakeholders are implementing adaptations, it looks at new programs and technological advances that are changing how and why we teach and learn. The book addresses trends in liberal arts integration of STEM innovations, the changing role of libraries in the digital age, global trends in youth mobility, and the development of lifelong learning programs. This is coupled with case study assessments of

the various ways China, Singapore, South Africa and Costa Rica are preparing their populations for significant shifts in labour market demands – shifts that are already underway. Offering examples of new frameworks in which collaboration between government, industry, and higher education institutions can prevent lagging behind in this fast changing environment, this book is a key read for anyone wanting to understand how the world should respond to the radical technological shifts underway on the frontline of higher education.

Rule of Law and Constitution Building

UNESCO pub. Essays on popular participation in the economic and social development process in developing countries - describes government policies, obstacles and the role of UNESCO; contains case studies of workers self management in Yugoslavia, community participation in development in Tanzania, Peru and Algeria, women's role in India and China, and participation in rural cooperatives and rural development in Senegal. References.

Higher Education in the Era of the Fourth Industrial Revolution

Technology and Innovation Support Centers (TISCs) are designed to provide innovators in developing countries with access to locally based, high quality technology information services and other related services.

Political Decentralisation in a New State

Patrick Hayden brings together an extensive collection of classical and contemporary writings on the topic of human rights, providing an exceptionally comprehensive introduction to the subject.

Participate in Development

The first volume of a 2-volume handbook on ancient Greek colonisation, dedicated to the late Prof. A.J. Graham, gives a lengthy introduction to the problem, including methodological and theoretical issues. The chapters cover Mycenaean expansion, Phoenician and Phocaeen colonisation, Greeks in the western Mediterranean, Syria, Egypt and southern Anatolia, etc. The volume is richly illustrated.

Technology and Innovation Support Centers (TISCs) - Enhancing innovation through knowledge and expertise

"The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established *prima facie* the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.

Philosophy of Human Rights

In this autobiography, John Reynolds recounts his fascinating life story and reflects on the major events and ideas of his time. The book covers a wide range of topics, from politics and society to religion and philosophy. Reynolds provides a unique perspective on the world of the mid-19th century, and his insights remain relevant to this day. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public

domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Constitution

Offers policy recommendations from Cato Institute experts on every major policy issue. Providing both in-depth analysis and concrete recommendations, the Handbook is an invaluable resource for policymakers and anyone else interested in securing liberty through limited government.

Congressional Record

By intelligence officials, for intelligent people

The Annotated Constitution of the Australian Commonwealth

This book, first published in 1956, is the first authoritative, comprehensive account of the worldwide activities of Jehovah's Witnesses. It traces their origins and development, and a special section covers the founding, organization and development of the movement in Great Britain.

Greek Colonisation

This book, with theoretical and practical analyses of comparative political systems of Eastern countries (Asia and Africa), their political process and political cultures, describes and analyses the influence of political culture on political process in the Eastern world. It gives readers an opportunity to make a comparative appraisal of maturity of civil society in these countries as well as their specifics in political interactions and internal political competition seen through the eyes of a group of distinguished Russian researchers. The book concentrates also on specifics of political-economic and political modernization in the East, and assesses the prospects of an emergence of a Western as well as a non-Western democracy in the framework of Eastern political transformations. It also explains why the one-dimensional spread of democracy — completely negating or neglecting regional political-cultural specifics — may lead to war among civilizations instead of the formation of a more just and fair system of democratic governance.

United States Code

The Hidden Force is a book by Louis Couperus. It gives a picture of life in the colonial Dutch East Indies in the wake of the nineteenth and the twentieth century.

My Own Times

Increase student performance, student engagement, and critical analysis skills with the third edition of American Democracy Now. This program is available with GinA, an educational game in which students learn American Government by doing, as well as McGraw-Hill's LearnSmart, an adaptive questioning tool proven to increase content comprehension and improve student results. Unique to this program, American Democracy Now 3e is a student-centered text focused on student performance. This contemporary approach and design, coupled with market-leading digital products, make this an ideal solution to course goals.

Cato Handbook for Policymakers

Arabic-English-Arabic Legal Translation provides a groundbreaking investigation of the issues found in legal translation between Arabic and English. Drawing on a contrastive-comparative approach, it analyses parallel authentic legal documents in both Arabic and English to examine the features of legal discourse in both languages and uncover the different translation techniques used. In so doing, it addresses the following questions: What are the features of English and Arabic legal texts? What are the similarities and differences of English and Arabic legal texts? What are the difficult areas of legal translation between English and Arabic legal texts? What are the techniques for translating these difficult areas on the lexical and syntactic levels? Features include: A thorough description of the features of legal translation in both English and Arabic, drawing on empirical new research, corpus data

analysis and strategic two-way comparisons between source texts and target texts Coverage of a broad range of topics including an outline of the chosen framework for data analysis, a historical survey of legal discourse developments in both Arabic and English and detailed analyses of legal literature at both the lexical and syntactic levels Attention to common areas of difficulty such as Shariah Law terms, archaic terms and modal auxiliaries Many examples and excerpts from a wide selection of authentic legal documents, reinforced by practical discussion points, exercises and practice drills to encourage active engagement with the material and opportunities for hands-on learning. Wide-ranging, scholarly and thought-provoking, this will be a valuable resource for advanced undergraduates and postgraduates on Arabic, Translation Studies and Comparative Linguistics courses. It will also be essential reading for translation professionals and researchers working in the field.

Understanding Mexicans and Americans

Controversies over public regulation of private land have dominated political agendas in recent years, especially at the local level. Land use and environmental regulation have reached unprecedented levels, and federal and state courts have garnered recent headlines by striking down regulations. Rights and regulations are on a collision course, and how they are reconciled will have a major impact on individuals, governments, and communities in the decades ahead. This book is the first systematic attempt to assess key constitutional developments in the land use field during the last decade in state and federal supreme courts. It highlights important trends, including the growing role of state supreme courts, attacks on regulation as exclusionary, and the emergence of the takings clause of the Fifth Amendment as a potentially major limitation on governmental power.

The World Factbook

Popular Politics in the History of South Africa, 1400–1948 offers an inclusive vision of South Africa's past. Drawing largely from original sources, Paul Landau presents a history of the politics of the country's people, from the time of their early settlements in the elevated heartlands, through the colonial era, to the dawn of Apartheid. A practical tradition of mobilization, alliance, and amalgamation persisted, mutated, and occasionally vanished from view; it survived against the odds in several forms, in tribalisms, Christian assemblies, and other, seemingly hybrid movements; and it continues today. Landau treats southern Africa broadly, concentrating increasingly on the southern Highveld and ultimately focusing on a transnational movement called the 'Samuelites'. He shows how people's politics in South Africa were suppressed and transformed, but never entirely eliminated.

Jehovah's Witnesses

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. Is Non-western Democracy Possible?: A Russian Perspective

The four decades long ideological-based insurgencies and conflict in the Kabul River Basin (KRB) have seriously hampered the relations and foreign policies of both Afghanistan and Pakistan. Consequently, it restricts them to solve various bilateral issues including transboundary waters. This lack of cooperation over shared water resources is one of the barriers to achieve inclusive and sustainable development. Additionally, it has contributed to the prevailing anarchic situation where each country does what it

wants. The absence of a formal water-sharing mechanism coupled with poor water management practices within both the riparian countries are resulting various flow and administration-related challenges. Moreover, these challenges are further exacerbated by regional changes in social, political, environmental and economic systems. The scholarly literature suggests that an analytical transboundary water governance framework is essential to address the challenges of water politicisation and securitisation, quality degradation and quantity reduction. Additionally, the literature rarely integrates (a) a multi-level approach, (b) an institutional approach (c) an inclusive development approach, or (d) accounts for the uses of different types of water and their varied ecosystem services for improved transboundary water governance. To enhance human wellbeing and achieve inclusive and sustainable development in the KRB this research indicates that it is essential to: (1) defrost frozen collaboration; (2) bypass border dispute; (3) use biodiversity and ecosystem services approach; (4) address existing and potential natural and anthropogenic challenges; (5) remove contradictions in the policy environment; (6) combat resource limits and dependence by promoting collaboration on long-term cost effective solutions; and (7) enhance knowledge and dialogue on inclusive development.

The Hidden Force

If justice in the Arab world is often marked by a lack of autonomy of the judiciary toward the executive power, one of the characteristic features of the Egyptian judiciary lies in its strength and activism in the defense of democratic values. Judges have been struggling for years to enhance their independence from the executive power and exercise full supervision of the electoral process to achieve transparent elections. Recent years have seen growing tensions in Egypt between the judiciary and the executive authority. In order to gain concessions, judges went as far as to threaten to boycott the supervision of the presidential and legislative elections in the fall of 2005 and to organize sit-ins in the streets. The struggle between the two powers was in full swing in the spring of 2006, when a conference convened in Cairo in early April on the theme of the role of judges in the process of political reform in Egypt and the Arab world. The conference was organized by the Cairo Institute for Human Rights Studies (CIHRS) in cooperation with the Institut de Recherche pour le Développement (IRD). This book is a collection of papers from the conference dealing with Egypt. They allow a better understanding of the role judges are playing in the process of democratic reform in Egypt as well as the limits of their struggle. Contributors: Nabil Abd al-Fattah, Ahmad Abd al-Hafiz, Maher Abu al-Einein, Hafez Abu Saada, Hisham Al-Bastawisi, Nathalie Bernard-Maugiron, Negad Al-Bora'i, Nathan Brown, Nathan, Mustapha Kamel al-Sayyed, Abdallah Khalil, Mahmud Al-Khudayri, Mahmud, Isabelle Lendrevie, Tamir Moustafa, Mohamed Al-Sayed Said, Atef Shahat Said, Younis Sherif

American Democracy Now

In Apartheid Israel: The Politics of an Analogy, eighteen scholars of Africa and its diaspora reflect on the similarities and differences between apartheid-era South Africa and contemporary Israel, with an eye to strengthening and broadening today's movement for justice in Palestine.

Arabic-English-Arabic Legal Translation

"A must-read for anyone interested in the Supreme Court."—MIKE LEE, Republican senator from Utah Politics have always intruded on Supreme Court appointments. But although the Framers would recognize the way justices are nominated and confirmed today, something is different. Why have appointments to the high court become one of the most explosive features of our system of government? As Ilya Shapiro makes clear in *Supreme Disorder*, this problem is part of a larger phenomenon. As government has grown, its laws reaching even further into our lives, the courts that interpret those laws have become enormously powerful. If we fight over each new appointment as though everything were at stake, it's because it is. When decades of constitutional corruption have left us subject to an all-powerful tribunal, passions are sure to flare on the infrequent occasions when the political system has an opportunity to shape it. And so we find the process of judicial appointments verging on dysfunction. Shapiro weighs the many proposals for reform, from the modest (term limits) to the radical (court-packing), but shows that there can be no quick fix for a judicial system suffering a crisis of legitimacy. And in the end, the only measure of the Court's legitimacy that matters is the extent to which it maintains, or rebalances, our constitutional order.

The fifth volume of this monumental series chronicles what was perhaps the stormiest period in the history of Marcus Garvey and the UNIA: the aftermath of the tumultuous 1922 convention. Outside the UNIA a growing list of opponents, including the black Socialists A. Philip Randolph and Chandler Owen, and the NAACP's Robert Bagnall and William Pickens, were turning their criticism of the controversial Jamaican into a "Garvey Must Go" campaign. Meanwhile, Garvey's former UNIA ally, Rev. J. W. H. Eason—who had been impeached at the 1922 convention—was emerging as a dangerous rival. Eason was assassinated in January 1923, just as he was to testify against Garvey in the latter's mail-fraud trial. Though it may be impossible to determine if Garvey had a role in the killing, the murder generated negative publicity that did untold damage to Garvey and his organization. Throughout all this, the federal government pressed its case against Garvey and his co-defendants on mail-fraud charges stemming from irregularities in the sale of Black Star Line stock. In June 1923 a jury found Garvey guilty and he was sentenced to five years in prison. Internecine feuds wracked the movement while Garvey languished in New York City's Tombs prison, awaiting bail so that he could mount an appeal. As soon as he was released in September 1923, he turned his energy to reconsolidating the UNIA, while considering the best appeal strategy. For the UNIA Garvey resurrected an old commercial message: that economic salvation was to be found in ships. In March 1924 he reconstituted the defunct Black Star Line as the Black Cross Navigation and Trading Co. and bought a ship, the S. S. General Goethals, in time for a tour of it by convention delegates. The shipboard tour proved to be a highlight of the 1924 convention, during which UNIA leadership was stunned by the Liberian government's formal repudiation of the movement's African colonization plans. Despite the UNIA's unexpected setback in Liberia, the movement continued to spread into new places, particularly in America's southern states. Generously illustrated with photographs and facsimile documents, Volume V of The Marcus Garvey and Universal Negro Improvement Association Papers upholds the impeccable editorial standards of the first four volumes. Once again, a wealth of new sources collected from around the world demonstrates how vitally important Marcus Garvey and the mass movement he controlled were to Afro-American history.

Research papers

This Companion presents new perspectives on Malcolm X's life and legacy for students of American history.

Death Penalty

Between 1347 and 1350, the Black Death killed at least one third of Europe's population. Philip Ziegler's classic account traces the course of the virulent epidemic through Europe and its dramatic effect on the lives of those whom it afflicted. First published nearly forty years ago, it remains definitive. 'The clarity and restraint on every page produce a most potent cumulative effect.' Michael Foot

U.S.D.A. Forest Service Research Note PSW.

How the people of a typical English village lived and died in the worst epidemic in history. The Black Death remains the greatest disaster to befall humanity, killing about half the population of the planet in the 14th century. John Hatcher recreates everyday medieval life in a parish in Suffolk, from which an exceptional number of documents survive. This enables us to view events through the eyes of its residents, revealing in unique detail what it was like to live and die in these terrifying times. With scrupulous attention to historical accuracy, John Hatcher describes what the parishioners experienced, what they knew and what they believed. His narrative is peopled with characters developed from the villagers named in the actual town records and a series of dramatic scenes portray how contemporaries must have experienced the momentous events.

Abstracts of Papers - Byzantine Studies Conference

This book explores the rarely recognized roles of notaries, innkeepers, brokers, transporters, and personnel of the merchant's entourage in medieval trade. The Mediterranean French marketplace of Montpellier serves as a venue to highlight the significant commercial contributions of these intermediaries.

The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. V

Bundeling van lezingen gehouden op een symposium over kleine (Amerikaanse) landbouwbedrijven (gezinsbedrijven). De resultaten van recent onderzoek specifiek gericht op deze bedrijven worden weergegeven. De gevolgen van de ontwikkeling van de gezinsbedrijven voor de families, de economie, de plattelands- en stedelijke consumenten, de landbouw in de wereld en de gevolgen voor andere terreinen worden beschreven

Deadly Silence

Applied Latent Class Analysis introduces several innovations in latent class analysis to a wider audience of researchers. Many of the world's leading innovators in the field of latent class analysis contributed essays to this volume, each presenting a key innovation to the basic latent class model and illustrating how it can prove useful in situations typically encountered in actual research.

The Black Death

This study of the Black Death considers the nature of the disease, its origin, spread, mortality and its impact on history.

The Black Death

Here Peter Johnson has put together a collection of his groundbreaking research. Now in one volume for the first time, it will be of great interest to those in every area of business and economics.

NTA NET Previous Papers (Topicwise) - Teaching and Research Aptitude Paper-1

Vols. for 1980- issued in three parts: Series, Authors, and Titles.

CARD Research Project Papers, 2004-2010

For the first time, a biography of William Cooper Nell and a major portion of his articles for "The Liberator"

FDA Papers

The book opens with an outline of the course of the pandemic, the causes and nature of bubonic plague, and the recent revisionist views of what the Black Death really was. The author presents the phenomenon of plague thematically by focusing on the places where people lived and worked: the home, the church and cemetery, the village, the pest houses, the streets and roads. The book then investigates contemporary theories of the causes of plague, doctors' futile attempts to treat victims, the authorities' vain attempts to prevent the pestilence, and its social impact. The narrative includes vivid examples from across Europe throughout the period, and presents the words of witnesses and victims themselves wherever possible.--From publisher description.

The Art of the Deal

The contributors to *Globalizing Cultural Studies: Ethnographic Interventions in Theory, Method, and Policy* take as their central topic the problematic status of «the global» within cultural studies in the areas of theory, method, and policy, and particularly in relation to the intersections of language, power, and identity in twenty-first century, post-9/11 culture(s). Writing against the Anglo-centric ethnographic gaze that has saturated various cultural studies projects to date, contributors offer new interdisciplinary, autobiographical, ethnographic, textual, postcolonial, poststructural, and political economic approaches to the practice of cultural studies. This edited volume foregrounds twenty-five groundbreaking essays (plus a provocative foreword and an insightful afterword) in which the authors show how globalization is articulated in the micro and macro dimensions of contemporary life, pointing to the need for cultural studies to be more systematically engaged with the multiplicity and difference that globalization has proffered.

Leading Cases on the Constitution of the United States, Arranged for Use in Government 1 at Harvard University

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

LEADING CASES ON THE CONSTITUT

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Leading Cases on the Constitution of the United States

Excerpt from Leading Cases on the Constitution of the United States: Arranged for Use in Government at Harvard University In its adjudication upon this question the Supreme Court supported the federal claim against the contention of The Doc Georgia. Although the judgment of the Court 321328 was delivered by John Jay, the Chief Justice, Wils°n° the reasons for the decision were formulated by Mr. Justice James Wilson, who had himself been one Of the leading members of the Constitutional Convention in 1787. Wilson maintained, in brief, that since the various states had formed themselves into a single nation for na tional purposes, Georgia had relinquished her sovereignty so far as her relations to the Union were concerned. The attitude Of the Court in this case gave strong support to 333 3133351 the national theory Of the Union as maintained 1798. By Alexander Hamilton, but the effect Of the decision was soon nullified by the action of the states in proposing and adopting the Eleventh Amendment to the Constitution. This amendment, which went into effect in 1798, amounted virtually to the recall of a judicial decision. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Leading Cases on the Constitution of the United States

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Leading Cases on the Constitution of the United States, Arranged for Use in Government 1 at Harvard University - Primary Source Edition

Compiled to meet the needs of students and professionals in economics, finance, accountancy and business, this wide-ranging, international Dictionary is for everyone who wants an up-to-date resource to the world of economics. Key Features over 4200 comprehensive A to Z entries, from after-hours to z-score, provide clear, definitive explanations of the key terms, issues, theories and concepts in economics today - as well as describing the contributions of key figures in the field each entry is headed by a short definition for quick reference, and where relevant, followed by an annotated bibliography to lead the reader to further sources cross-referenced for ease of access the full range of subjects is covered, from classical economics and the study of value and growth, to contemporary concerns such as European Union and Green conditionality detailed coverage of vital econometric terms and statistics including entries such as eigenprices and M0 includes specialised commercial and financial jargon illustrated with 94 line diagrams unique subject index for ease of access

Leading Cases on the Constitution of the United States

This authoritative text and reference work is based upon landmark cases decided by the Supreme Court and still prevailing. Widely adopted and recommended for courses and research in American history, constitutional law, government, and political science. Clear, concise summaries of the most frequently cited cases since the establishment of the U.S. Supreme Court; each summary gives the question at issue, the decision and the reason behind it, votes of the justices, pertinent corollary cases, and notes offering further information on the subject; detailed explanation of the organization and functions of the Supreme Court; a complete text of the Constitution of the United States; a complete index of all cases cited; listings of all the chief justices and associate justices, the dates of their service, and president who appointed them, their state of origin, and their birth and death dates.

Leading Cases on the Constitution of the United States

Collins, Charles Wallace. The Fourteenth Amendment and the States: A Study of the Operation of the Restraint Clauses of Section One of the Fourteenth Amendment to the Constitution of the United States. Boston: Little, Brown, and Company, 1912. xxi, 220 pp. includes tables and diagrams. Reprint available December 2004 by The Lawbook Exchange, Ltd. ISBN 1-58477-463-0. Cloth. \$85. * Collins examines the origins of the amendment and the way its scope was enlarged over time. He argues that it has failed to protect African-Americans, and that its application in extra-racial matters has led to excessive litigation and harmful restrictions on the states. "This book is interesting throughout; but perhaps the most striking parts are those in which the author gives the figures as to the number of cases, their nature, and their geographical distribution.": Harvard Law Review 26:664-665 cited in Marke, A Catalogue of the Law Collection at New York University (1953) 408.

Leading Cases on the Constitution of the United States

DIVA number of leading legal scholars address different aspects of the American experience of territorial government in areas unincorporated for reasons of geography and the cultural and racial makeup of their peoples with special emphasis on the status of P/div

The National Union Catalog, Pre-1956 Imprints

Continuation of hearings on civil rights legislation to create a bipartisan commission to investigate violations of civil rights; to create a civil rights division within the Justice Dept; to enact new legislation to aid in voting rights enforcement; and to permit Federal Government to seek civil courts' preventive relief in civil rights cases.

The Constitution of the United States and Ten Leading Cases in Interpretation of it

Compares modern U.S. politics with the postwar system and discusses presidential elections, special interest groups, the bureaucracy, and political parties

The National Union Catalog, Pre-1956 Imprints

Examines the actions and accomplishments of executive branch initiatives to restrain and reform intergovernmental regulation during the 1980s. It inventories a number of significant new mandates enacted by Congress during the past decade and develops a rough estimate of their cumulate costs. Also traces the Supreme Court's evolving doctrines affecting intergovernmental regulation. Presents recommendations for responding to this situation. Over 30 charts, tables, and graphs.

Statistics of Land-grant Colleges and Universities

Maternity Discrimination is an ever increasingly important area of the law around the world, affecting both women and men as they juggle parenthood and the workplace. Pregnant Pause provides readers with a better understanding of the issue of maternity discrimination and inequality by looking at the primary role of legislation, and its impact on the court process at both national and international levels for those suffering maternity discrimination. It also discusses the two most important trade agreements of our day - namely the North American Free Trade Agreement and the European Union Treaty - in a historical and compelling analysis of maternity discrimination and employment. By providing a detailed examination of the relationship between maternity issues in the workplace and the law, the book will be an important read for all those concerned with equality.
