LM: "Com'è possibile aprirsi ai valori per raggiungere la consapevolezza di ciò che conta per noi veramente?"

SH: "La mente è orientata alla risoluzione dei problemi: la modalità giudicante della nostra mente, ci insegna ad approcciarci alle cose sulla base del giudizio.

Conosco solo 4 modi per raggiungere la consapevolezza di queste qualità e tutti sono accessibili solo dopo aver "messo un freno" agli eccessi della mente orientata al problem-solving, così da aiutarci a trovare quel tipo di consapevolezza che ci permette di osservare, descrivere e apprezzare.

Ad esempio se stasera dovreste vedere un bellissimo tramonto, non vi mettereste a dire "Oh, meraviglioso! Ma forse servirebbe un po' più di blu e non così tanto rosa!": questo tipo di processo basato sul giudizio è quello che utilizziamo per definire risultati e obiettivi, e fa sì che viviamo la vita come un problema da risolvere.

quindi ecco i 4 modi per raggiungere la consapevolezza di queste qualità

LM: "Cosa intendi con flessibilità e inflessibilità psicologica nell'ACT?"

SH: "Sì, utilizziamo il termine flessibilità psicologica e ciò a cui questo termine si riferisce è un insieme di abilità che hanno una direzione positiva

L'ACT è parte di un lavoro molto più ampio che mira a sviluppare la flessibilità psicologica nella vita umana e che tenta di creare una disciplina scientifica "annidata" nella scienza evolutiva, una scienza comportamentale che sia funzionale e contestuale e che sia in grado di comprendere come funzionano questi processi, come possono essere appresi e diffusi."

The Celestine Vision

Based on his personal experiences, the author of "The Celestine Prophecy" and "The Tenth Insight" shares his vision for--and explains how to achieve--a new era of global peace and understanding.

Described as the most direct explanation of the new world vision presented in the phenomenally successful Celestine fiction series, this fascinating and illuminating book reveals the author's inside view of how we are discovering the transcendent in our everyday existence and interpreting our individual synchronicity to find our destined purpose in life. Based on James Redfield's own experiences and those reported to him from every corner of the world since the writing of The Celestine Prophecy and The Tenth Insight, this book describes the first-hand growth techniques Celestine fans everywhere are looking for - perfectly setting the stage for the next remarkable book in the Celestine series, The Eleventh Insight.

MYSTICISM MEETS ADVENTURE - A THRILLING EXPLORATION OF SPIRITUALITY AND SELF-DISCOVERY In the remote snow-covered mountains near Tibet lies a community long thought to be a mere myth called Shambhala, or Shangri-La. Here, in this place, is knowledge that has been kept hidden for centuries - and an insight that can have profound impact on the way each of us lives our lives. Your search for Shambhala will lead to Kathmandu, Nepal and then to Lhasa, Tibet. You will meet the secret Tibetan sect that guards mysterious legends. You will pass regions where anger and compassion struggle for ascendancy, and arrive at a place where the stunning reality about human prayer-energy is about to be revealed. Like all of James Redfield's books The Secret of Shambhala has a parable effect. Open yourself to this adventure and the experience will stretch your worldview and leave you determined to channel your thoughts and wishes into a dynamic force that can help you liberate your life, enhance others and actively change the world. 'The best yet from James Redfield ... even better than The Celestine Prophecy' Marianne Williamson 'In his inimitable style of great storytelling, James Redfield opens us up to a world of insight, synchronicity and power. Read this book.' Deepak Chopra

The Secret of Shambhala

In the Tenth Insight James Redfield continues the inspirational parable he began in The Celestine Prophecy, further exploring spirituality, intuition, synchronicity and visualization - and illuminating both the world outside us and within us. Part of the Storycuts series, this is the 'pocket' edition of The Tenth Insight.

The Tenth Insight: A Pocket Guide (Storycuts)

In this perceptive guidebook, Dr. Marilyn Barrick discusses the Indigo, Crystal and Spirited children, their mission to help Earth fulfill her divine destiny and the special challenges to the parents raising these extraordinary children.

A Spiritual Approach to Parenting

Over the past several decades, there has been a remarkable shift in the way humanity views life as a whole. In fact, some would say what we are experiencing is radical. Our physical needs are no longer our only focus. Now, we are also pursuing spiritual and emotional fulfillment. An increasing number of people are looking to step away from the ego and move toward conscious awareness. They are seeking their true purpose in this life. The process of connecting with the non-physical world is challenging. Both our bodies and our minds will encounter symptoms that cannot easily be diagnosed via traditional means. We may experience dis-ease, and yet all the tests come back normal. This is part of the journey. Furthermore, how do we make choices that sit well in our bodies? How do we manage stress in a healthy way? How do we cope with trauma we have experienced and find our way out of the negativity and into a safe and supportive space? Jenna Walker's *A Guide to the Collective Awakening* addresses just that: our awakening. In this book, you will learn about meditation and the breath. You will learn how to consciously feed the body through specific food and water choices. You will also learn how to feed your soul through ten hands-on art projects meant to guide you in processing and releasing your emotions in a healthy and constructive way. Rediscover your divine power, connect with the universe, express yourself creatively, and take your personal growth into your own hands. As Walker says, "We have the ability and power to heal ourselves." Use this book to take your first steps on this magnificent journey of awakening.

A Guide to the Collective Awakening

From James Redfield, the author of the phenomenal international bestseller, *The Celestine Prophecy*, and Michael Murphy, the author of the bestselling *Golf in the Kingdom*, with documentary filmmaker Sylvia Timbers, comes the story of the past, present and future of human potential - and a journey that can take contemporary seekers to the next level of spiritual evolution. Written with the insight of the *The Celestine Prophecy* and representing a unique pairing of global visionaries, *God and the Evolving Universe* is a book that deepens our knowledge of personal growth and shows how each of us can begin to integrate our extraordinary experiences into a heightened synchronistic flow - allowing us to participate consciously in an unfolding evolutionary adventure. With exercises that readers can use to develop the abilities they are reading about, *God and the Evolving Universe* heightens readers' awareness of their place in personal/planetary evolution and sets the stage for actualizing the next level of human potential.

God And The Evolving Universe

The *Encyclopedia of Religion and Nature*, originally published in 2005, is a landmark work in the burgeoning field of religion and nature. It covers a vast and interdisciplinary range of material, from thinkers to religious traditions and beyond, with clarity and style. Widely praised by reviewers and the recipient of two reference work awards since its publication (see www.religionandnature.com/ern), this new, more affordable version is a must-have book for anyone interested in the manifold and fascinating links between religion and nature, in all their many senses.

Encyclopedia of Religion and Nature

In the remote snow-covered mountains near Tibet lies a community long thought to be a mere myth called Shambhala, or Shangri-La. Here, in this place, is knowledge that has been kept hidden for centuries, and an insight that can have a profound impact on the way each of us lives our lives. Your search for Shambhala begins with the words of a child and the vision of an old friend. Those slender clues and a powerful synchronicity will lead to Kathmandu, Nepal, and then to Lhasa, Tibet. Amid blowing snows and perilous mountains, you will meet the members of the secret Tibetan sect that guards mysterious legends - the verbal instructions handed down for centuries that describe the inner changes one must undergo before entering Shambhala. Finally, with Chinese Agents in pursuit, you will pass through regions where anger and compassion struggle for ascendancy, and arrive at a place where the stunning reality about human prayer-energy - our underdeveloped ability to increase the synchronicity in our lives and influence what will happen to us in the future - is revealed. Like James Redfield's other books, *The Secret of Shambhala* has a parable effect. Open yourself to this amazing adventure and the experience will stretch your world view. It will also leave you determined to channel your thoughts and wishes into a dynamic force that can help you to liberate your life, enhance the lives of others and actively change the world.

The Secret Of Shambhala: In Search Of The Eleventh Insight

Griffiths narrative moves like a searchlight over each phase of church history, illuminating the visions, options, and choices behind events. He traces the rise of a dominator version of Christianity, in which the primary concern was a chain of command to be followed, with rewards or punishments according to the degree of obedience. And beside this he illuminates another face of Christianity, concerned with healing all divisions between loved and unloved people. The story Griffith presents is often deeply disturbing, as in his unstinting accounts concerning the gospel for women, or the age of holy wars and witch hunts. But ultimately his story offers solid grounds for optimism. He shows that all contention between different religious visions can be a process of building partnership. As Griffith points out, Jesus himself wished to debate his opponents openly, not to silence or eliminate them. He was not afraid of real encounter, or the potential of creative conflict. I want to congratulate Brian Griffith on this masterful, controversial, and highly readable account. His book offers hope in a divided world, where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism. I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world. Riane Eisler, author of *The Chalice & the Blade*, *Sacred Pleasure*, *Tomorrows Children*, *The Power of Partnership*, *The Real Wealth of Nations* "I find it gives me an incredibly clarifying perspective on Christianity way beyond my previous understanding. It should be read by everyone with an interest in Western Civilization. It is a marvelous companion to *The Great Turning*." David Korten, author of *The Great Turning: From Empire to Earth Community*

Different Visions of Love

The late twentieth and early twenty-first centuries have heralded the birth of many special children who exhibit unique sensitivities and abilities. This book shows how these children can be recognized and nurtured as the special people they truly are.

Psychic Children

The purpose of this book is to share a revelation. The information on which this revelation is based came from the Universal Mind (God). It came in whispers. It came through dreams. It came when experiencing the heightened awareness of meditation or hypnotic trance or mental imagery. It was often received in the form of startling intuition. The vehicle for presenting this revelation is the story of one person's developmental journey from simple consciousness to cosmic awareness. The main character (Gregg) arrives at a potent juncture in his life where all the negatives and positives seem to feed into a central purpose. The more he learns, the more he is able to see. Events in his life that are "no coincidence" become ever more frequent and lead him to significant discoveries. These discoveries accumulate and one day they result in a powerful flash of insight that he instantly knows is something vitally important for peace in the world and the ultimate survival of human life.

Mitchell's Point

Based on a reading of more than three hundred self-help books, Sandra K. Dolby examines this remarkably popular genre to define "self-help" in a way that's compelling to academics and lay readers alike. Self-Help Books also offers an interpretation of why these books are so popular, arguing that they continue the well-established American penchant for self-education, articulate problems of daily life and supposed solutions for them, and present their content in an accessible rather than arcane form and style. Using methods associated with folklore studies, Dolby then examines how the genre makes use of stories, aphorisms, and a worldview that is at once traditional and contemporary. The overarching premise of the study is that self-help books, much like fairy tales, take traditional materials, especially stories and ideas, and recast them into extended essays that people happily read, think about, try to apply, and then set aside when a new embodiment of the genre comes along.

Self-Help Books

We all face adversity, both man-made and natural. How do we survive the loss of a loved one, a betrayal, illness, even impending death, and still find meaning in our lives? Even a "normal" life can seem empty, in spite of material possessions, success, power, and pleasure. In our search for fulfillment and meaning, we work through our past and present conflicts, cuddle our inner child, and redesign our outer adult. We attend workshops on life and secular spirituality and explore the comforts of traditional religion. We get married and divorced, experiment with drugs and alcohol, change jobs. And while our restlessness and unease may abate temporarily, the hollow feeling that there is something missing always returns. In his profound and accessible work, *The Art of Serenity: The Path to a Joyful Life in the Best and Worst of Times*, Dr. T. Byram Karasu offers us the key to an extraordinary state of mind -- authentic, soulful happiness -- in the face of everything our life has to offer and take away. The door to this state of mind is opened by a combination of soul and spirit. It involves the soul through the love of others, love of work, and the love of community. It involves the spirit through belief in the sacred and belief in transformation. It culminates in the love of and belief in God. Brilliantly synthesizing psychology and spirituality, Dr. Karasu will guide you to explore the deepest yearnings of your heart. There is no end to the journey to real happiness; there is no best place to start or best time to begin. So where and when to start? Start here, where you are, and start now.

The Art of Serenity

This volume deals with the transformation of unchurched religious creativity in the late modern West. It analyzes the ways in which the advance of science, globalization and individualism have fundamentally reshaped esoteric religious traditions, from theosophy to the New Age. This publication has also been published in paperback, please [click here](#) for details.

Claiming Knowledge

Find Enlightenment Through Your Physical Body Audrey Mairi views enlightenment not as a philosophical puzzle to solve or a spiritual epiphany but instead as an everyday experience grounded in ordinary physical movements. Designed for all ages and fitness levels, *Trager for Self-Healing* presents simple ways to increase awareness of the present moment. While many books offer advice about being in the now, few point out practical ways to experience what that actually feels like. The exercises in this book are designed to anchor the feeling of presence in the body/mind. Based on the work of Dr. Milton Trager, this book will guide you to release holding patterns, open to the Life Force, and make healthy choices, bringing love and light into your life.

Trager for Self-Healing

Distilling the messages of "The Tenth Insight" and drawing material from his bestselling inspirational calendars, James Redfield presents 12 original essays which explore such topics as Sacred Sites, A Gift from the Animals, Believing in Our Intuitions, Overcoming the Fear, and Holding the Vision.

The Tenth Insight

The Power of Love, Living From Our Hearts is the first in a series of books designed to elevate an individual into a state of awareness. It is a transformational process of our choosing to use our conscious awareness in each moment to come from love instead of fear. The purpose of this book is to assist in remembering the truth of our magnificence. This process occurs by becoming self-realized: The

self-realization that we create our reality through our thoughts, words, and actions. When our mental, emotional, and physical bodies align with unlimited love, there is no lack or self-imposed limitations. Everything is possible. The function of this book is to provide spiritual information with effective practical tools. The information demonstrates how to integrate a spiritual life style within a successful current reality. It bridges the gap between religious and non-religious individuals. This book contains seven Universal Truths and several practical tools successfully applied by many clients, family members and other professionals, along with my personal journey of self-discovery. Tremendous wisdom is gained learning from many of life's challenges, such as morbid obesity (weighing at one point 428 lbs.), financial bankruptcy, childrearing as a result of sibling death, and divorce.

The Power of Love

Running with the Fairies: Towards a Transpersonal Anthropology of Religion is a unique account of the living spirituality and mysticism of fairyfolk in Ireland. Fairyfolk are fairyminded people who have had direct experiences with the divine energy and appearance of fairies, and fairypeople, who additionally know that they have been reincarnated from the Fairy Realm. While fairies have been folklore, superstition, or fantasy for most children and adults, now for the first time in a scholarly work, highly educated persons speak frankly about their religious/spiritual experiences, journeys, and transformations in connection with these angel-like spirit beings. Set in academic and popular historical perspectives, this first scholarly account of the Fairy Faith for over a hundred years, since believer Evans-Wentz's 1911 published doctoral dissertation *The Fairy-Faith in Celtic Countries*, integrates a participatory, "going native" anthropology with transpersonal psychology. Providing extensive verbatim interviews and discussions, this path-breaking work recognizes the reality of nature spirit beings in a Western context. Through intensive on-site fieldwork, the PhD cultural anthropologist author discovers, describes and interviews authentic mystics aligned with these intermediary deific beings. With an extensive introduction placing fairies in the context of the anthropology of religion, animism, mysticism, and consciousness, this daring ethnography considers notions of "belief", "perception", and spiritual "experience", and with intricate detail extends the focus of anthropological research on spirit beings which previously have been considered as locally real only in indigenous and Eastern cultures.

Running with the Fairies

How can the Tenth Insight Change My Life? The insights found in *The Celestine Prophecy* and *The Tenth Insight* have touched the lives of many millions of people; they are not theoretical. When we become aware of how they work, coincidences and serendipitous encounters increase for us. As our level of consciousness expands, our vision of the world is transformed, and we get a glimpse into the heart of creation. And as we learn how thought and visualization precede reality, we can begin to harness them to benefit our own future and the future of the earth. The perfect companion volume for *The Tenth Insight*, this hands-on guide was written to help individuals and groups implement the ideas found in that book. It provides detailed explanations and exercises on Tenth Insight topics: previous lifetimes, soul groups, birth visions, the use of dreams and prayers, the afterlife, and the World Vision. It helps us experience firsthand how our own lives fit into the eternal cycles... teaches us how to discover our own personal missions...and reveals how we can all take part in the ultimately joyful world changes described in *The Tenth Insight*.

Holding the Vision

You begin your quest with "The Celestine Prophecy," a parable that reads like a gripping adventure tale. Here you discover that an ancient Peruvian manuscript has disappeared. Although few Westerners know of its existence and a government wants to suppress it, this precious document contains an important secret: the nine Insights the human race is predicted to grasp as we enter an era of true spiritual awareness. To find the manuscript, you will journey high into the Andes mountains and into the deepest places of the self. When the last of the nine Insights is revealed to you, you will have an exciting new image of human life, and a positive vision of how we will save this planet, its creatures and its beauty. But one Insight will still be missing...

Celestine Insights - Limited Edition of Celestine Prophecy and Tenth Insight

A boy completes a quest by following the insights about life he discovers around him.

A Midsummer Night's Dream: Shakespeare's Syzygy of Meaning

In this book, Hope, Help, Healing with Archangel Raphael and The Angels, many comments and much information is given which is extremely important at this time in terms of very much needed hope both in the present and for the future. Planet Earth and the individuals living on it need to know about Angels, Archangels, Spirit Guides, and Ascended Masters in order to avail themselves of all the helpful, hopeful, healing, protecting and guiding ways they have given in the past and about how all these offerings can be utilized now. The Emerald Joy Healing Ceremonials, the attunements and the messages are valuable because they come directly from Archangel Raphael himself, his contributions benefiting us all. The authors intensive and extensive research about past Golden Ages and the predicted Golden Age to come culminates in a last chapter which shows the cosmic role Planet Earth has played in the past and needs to play again. This book has come forth at this time to offer words of hope, help, and healing to a world in its transformational period!

The Song of Celestine

Sequel to The Celestine prophecy.

Hope, Help, Healing with Archangel Raphael and the Angels

The Handbook of New Age is a comprehensive survey of alternative spiritualities: their history, their global impact, their cultural influence and how they are understood by scholars.

Since many autoimmune diseases are driven by Th17 cells and suppressed by Treg cells, the balance
between these cell types is critically important for pathogenesis, prognosis, and therapy.
Molecular mimicry is one of the leading mechanisms by which infectious or chemical agents may
induce autoimmunity. It occurs when similarities between foreign and self- peptides favor an activation
of autoreactive T or B cells by a foreign-derived antigen in a susceptible individual.
A characterization of the reactivity profile of intestinal plasmablasts isolated from healthy participants
revealed that 25% of intestinal IgA and IgG antibodies were polyreactive with diverse foreign and

self-antigens.

Polyreactive antibody responses established by recognition of commensal bacterial antigens may be adaptive for the host response against pathogens expressing cross-reactive antigens.

These analyses reveal associations between antibody responses to intestinal microbes and HLA-DR genotype and islet autoantibody specificity and with a future diagnosis of T1D.

It is now believed that the microbiome is a major trigger of autoimmunity in genetically predisposed hosts.

Molecules encoded by this region are involved in antigen presentation, inflammation regulation, the complement system, and the innate and adaptive immune responses, indicating the MHC's importance in immune-mediated, autoimmune, and infectious diseases.

Genetic predisposition, is a "sine qua non" for the ...

As part of the Human Functional Genomics Project, examination of millions of human genetic variants demonstrates that host genetics plays a significant role in inter-individual variability of cytokine production in response to different types of microbial stimuli.

The immune system controls microbial ecology, but reciprocally, the microbiota produces a broad range of biochemically active molecules, which affect the maturation and function of the immune system.

Specific components of the gut microbiome have been implicated in the production of pro-inflammatory cytokines and subsequent generation of Th17 cells. Similarly, commensal bacteria and their metabolites can also promote the generation of regulatory T cells (Treg), contributing to immune suppression.

If 'autoantibodies' are created in response to microbiome pathogens, then treatments that support the immune system could better address the root cause of the disease process.

This opens up new possibilities in 'autoimmune disease research. The concept of the 'autoantibody' should be retired in favor of a paradigm that seeks to foster microbiome health, diversity, and balance.
