

Global Warming The Research Challenges A Report Of Japan A

[#Global Warming](#) [#Climate Change](#) [#Japan Research](#) [#Environmental Science](#) [#Sustainability](#)

This report delves into the research challenges surrounding global warming, focusing specifically on the impact and research efforts within Japan. It explores the complexities of climate change mitigation and adaptation strategies being implemented and investigated within the Japanese context, highlighting key findings and areas for future research.

BULLETIN / DIV OF ENTOMOLOGY B

This is the first monograph on the Australian genera of Elateridae - click beetles. The book deals with 74 genera, among which 14 are newly recognised. The volume documents the entire Australian fauna and provides lavish illustrations of representative species, and typical examples of the male and female genitalia for each genus. The phylogeny of the genera is analysed and there is a checklist of all described species and appropriate bibliographic and type locality details are given.
