Frank Wood's Business Accounting

Prepare for your exams and learn essential accounting techniques with this bestselling introduction to financial accounting. Frank Wood's Business Accounting, 15th edition is the world's best-selling textbook on bookkeeping and accounting, ideal for those who are new to the field as well as students and professionals who are more experienced. With its clear structure and reader-friendly language, it is a comprehensive, easy-to-follow introduction to the principle ideas and methods in business accounting, from the all-important terminology and techniques to the key financial statements. With updated, enhanced features and review questions, this edition will broaden your understanding of the methods around the subject and create a solid foundation for your knowledge in accounting. Such features are the Learning Objectives and Outcomes included at the beginning and end of each chapter, giving you a clear learning direction and allowing you to check your knowledge of the material. A range of activities and questions throughout the book will help you further test what you have learned, followed by the answers at the end of each chapter so you can learn from your mistakes and solidify your knowledge. Used by generations of students and professionals across the globe, this industry-leading text provides everything you need to know, to gain a solid understanding of the essential accounting principles and concepts. Instructors, pair this text with MyLab® Accounting By combining trusted author content with digital tools and a flexible platform, MyLab personalises the learning experience and improves results for each student. Over 700 questions and problems are available in MyLab which test the ideas in this book, many of which can be used multiple times with a different calculation each time to complete. If you would like to purchase both the physical text and MyLab Accounting search for: 9781292365510 Frank Wood's Business Accounting 15th Edition with MyLab® Accounting. Regulation of Securities: SEC Answer Book, 5th Edition

Regulation of Securities: SEC Answer Book, Fifth Edition is your complete guide to understanding and complying with the day-to-day requirements of the federal securities laws that affect all public companies. Using a question-and-answer format similar to that which the SEC has embraced, this valuable desk reference provides concise, understandable answers to the most frequently asked compliance questions, and ready access to key statutes, regulations, and court decisions. Designed for both beginners and seasoned professionals, the volume contains approximately 1,400 pages organized in 23 self-contained chapters. Each chapter covers the basics before moving into the nuanced details, meeting the needs of those who seek a general understanding of a topic as well as those grappling directly with critical issues. Twice-yearly supplements keep the book current in this rapidly evolving field. Whether you are a lawyer, accountant, corporate executive, director or investor, you'll be able to quickly find concise answers to essential questions about the Dodd-Frank Act, Exchange Act registration and reporting, executive compensation disclosure, derivatives disclosure, management's discussion and analysis, audit committee responsibilities, Sarbanes-Oxley, electronic filing, interactive financial data, tender offers, proxy solicitations, insider trading, going private transactions, shareholders' rights, SEC investigations, criminal enforcement, securities class actions, and much more!

Business Accounts

All major elements of this 15th edition of the text have been revised to reflect changes to accounting courses of the late-1990s. It includes a new pedagogy and end-of-chapter material. Using the Information sections emphasize the importance of understanding ratios.

Fundamental Accounting Principles

Taxmann's PROBLEMS & SOLUTIONS for Financial Reporting – Questions from Past Exams, Educational Materials, Ind AS Bulletins, RTPs/MTPs of ICAI, Companies (Ind AS) Amendment Rules, etc. | CA Final

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Practical Problems in Financial Accounting

A compilation of Joe Celko's trickiest puzzles from his columns in "DBMS" and "Database Programming & Design" magazines, these pages include never-before-published puzzles and a variety of solutions. In his usual entertaining and informative style, Celko uses his puzzles to teach readers to write non-procedural programs and to introduce new methods and practical, useful applications of SQL implementation.
