Some of the clips are different boilers with the same design because i didn't get a good video at the time.

Don't forget to clean the magnet filter if there is one fitted. Ask the customer as they might not be in an obvious place.

At this point replace the seals as needed, clean/ replace the electrodes as required. Fit in reverse order.

Spray the joints to make sure they are gas tight.

Make sure inlet pressure is correct before adjusting the gas valve.

A couple of minutes of adjusting the gas valve coming up, skip ahead if you don't need to see.
