Illuminatus!

This extraordinary and breathtakingly beautiful book celebrates a lifetime of collecting passion. Oliver Hoare, one of London's most distinguished dealers, originally learnt his craft in the company of Bruce Chatwin. His love of the rare, the evocative, the seductive shines out from every stunning object in this collection and the stories that he teases out from them. No one could fail to be drawn into this gorgeous labyrinth. Published to coincide with an exhibition held in the magnificent settings of the Livery Room in Sir John Millais's studio house in South Kensington, the book includes antiquities from the ancient and classical worlds; objects connected to shamanism, magic and alchemy; engravings by Dürer, Hollar and Rembrandt; unusual paintings and textiles; and many curiosities. Highlights include: the silver libation cup of Mengke Khan, grandson of Genghis and ruler of an empire that stretched from modern Bucharest to Peking, and Karachi to Novgorod; the apple from the Garden of Eden - a silver pomander belonging to the Stuart Kings, with bite marks, opening to reveal a silver skull; a Scythian (6-7th centuries BC) jade pendant of the endangered Saiga antelope, as finely carved as anything by Fabergé; a bronze Bacchus head from a tripod table belonging to the Emperor Augustus; a limestone bear carved in 3rd millennium BC Bactria. "The point of the exhibition, as its title announces, is to celebrate the fascinating, and often peculiar stories attached to works of art. The criterion for what is presented has little to do with the value of objects and therefore it differs from the more conventional 'Cabinet of Curiosities'. Nor does it reflect the current canon of what is seen as beautiful or culturally significant, although there are significant and beautiful works of art by anyone's standards. The catalogue is, hopefully, the work of a storyteller's art." Oliver Hoare

A profound understanding of the surrealists' connections with alchemists and secret societies and the hermetic aspirations revealed in their works • Explains how surrealist paintings and poems employed mythology, gnostic principles, tarot, voodoo, alchemy, and other hermetic sciences to seek out unexplored regions of the mind and recover lost "psychic" and magical powers • Provides many examples of esoteric influence in surrealism, such as how Picasso's *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers*. Not merely an artistic or literary movement as many believe, the surrealists rejected the labels of artist and author bestowed upon them by outsiders, accepting instead the titles of magician, alchemist, or--in the case of Leonora Carrington and Remedios Varo--witch. Their paintings, poems, and other works were created to seek out unexplored regions of the mind and recover lost "psychic" and magical powers. They used creative expression as the vehicle to attain what André Breton called the "supreme point," the point at which all opposites cease to be perceived as contradictions. This supreme point is found at the heart of all esoteric doctrines, including the Great Work of alchemy, and enables communication with higher states of being. Drawing on an extensive range of writings by the surrealists and those in their circle of influence, Patrick Lepetit shows how the surrealists employed mythology, gnostic principles, tarot, voodoo, and alchemy not simply as reference points but as significant elements of their ongoing investigations into the fundamental nature of consciousness. He provides many specific examples of esoteric influence among the surrealists, such as how Picasso's famous *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers*, how painter Victor Brauner drew from his father's spiritualist vocation as well as the Kabbalah and tarot, and how doctor and surrealist author Pierre Mabille was a Freemason focused on finding initiatory paths where "it is possible to feel a new system connecting man with the universe." Lepetit casts new light on the connection between key figures of the movement and the circle of adepts gathered around Fulcanelli. He also explores the relationship between surrealists and Freemasonry, Martinists, and the Elect Cohens as well as the Grail mythos and the Arthurian brotherhood.

Every Object Tells a Story

Based on a series of booklets written by bestselling motivational writer Napoleon Hill, Andrew Carnegie's *Mental Dynamite* outlines the importance of three essential principles of success: self-discipline, learning from defeat, and the Golden Rule applied. In 1908, Napoleon Hill met industrialist Andrew Carnegie for what he believed would be a short interview for an article. Instead, Carnegie spent hours detailing his principles of success to the young magazine reporter. He then challenged Hill to devote 20 years to collating a proven formula that would propel people of all backgrounds to happiness, harmony, and prosperity. Hill accepted the challenge, which he distilled in the perennial bestseller *Think and Grow Rich*. Now, more than a century later, the Napoleon Hill Foundation is releasing this epic conversation to remind people that there are simple solutions to the problems troubling us most,

everything from relationships and education to homelessness and even democracy. This is revealed in three major principles: self-discipline, which shows how the six departments of the mind may be organized and directed to any end; learning from defeat, which describes how defeat can be made to yield “the seed of an equivalent benefit” and how to turn it into a stepping-stone to greater achievement; and the Golden Rule applied for developing rewarding relationships, peace of mind, and a strengthened consciousness. Each chapter draws on Carnegie’s words and advice as inspiration, with annotations by Napoleon Hill scholar James Whittaker explaining why they are essential for reaching your goals and prospering—for you, your family, and your community.

The Esoteric Secrets of Surrealism

Stranger Things meets Point Horror in the first of a brilliant new series for readers aged 11+ from Yvette Fielding, British television’s first lady of the paranormal and presenter of Most Haunted. When Clovis, Eve and Tom decide to play with a ouija board in an old abandoned house on Halloween, none of them foresees the horrors they’re about to unleash. What starts out as a bit of fun, soon transcends into something far more terrifying when a distressed and determined spirit follows them home. Before long the friends are caught up in a series of events beyond their wildest imaginings and their journey as ghost hunters begins . . . 'When I grow up I wanna be a ghost hunter!' Keith Lemon 'If you're reading this scary book in bed then it might be wise to leave the landing light on' Paul O’Grady 'I'm too scared to read this!' Matt Lucas

Andrew Carnegie's Mental Dynamite

THE INTERNATIONAL BESTSELLER The complete history of the world, from the beginning of time to the present day, based on the beliefs and writings of the secret societies. Jonathan Black examines the end of the world and the coming of the Antichrist. Or is the Antichrist already here? How will he make himself known and what will become of the world when he does? Will it be the end of Time? Having studied theology and learnt from initiates of all the great secret societies of the world, Jonathan Black has learned that it is possible to reach an altered state of consciousness in which we can see things about the way the world works that hidden from our everyday commonsensical consciousness. This history shows that by using secret techniques, people such as Leonardo da Vinci, Isaac Newton and George Washington have worked themselves into this altered state - and have been able to access supernatural levels of intelligence. This book will leave you questioning every aspect of your life and spotting hidden messages in the very fabric of society and in life itself. It will open your mind to a new way of living and leave you questioning everything you have been taught - and everything you've taught your children.

Tradescant's Rarities

Here is the book Merlin could have given a young Arthur . . . if only it had existed. Out of the millions of Harry Potter fans worldwide, there are tens of thousands who want to really do the magical things J.K. Rowling writes about. But would-be wizards must rely on information passed down from wizard elders. Is there a Hogwarts anywhere in the real world? A real Albus Dumbledore? Where is the book these aspiring wizards need? Luckily for all those fans, Oberon Zell-Ravenheart, today’s foremost genuine wizard, has written the essential handbook. What’s more, he has gathered some of the greatest names in Wicca—including Ellen Evert Hopman, Raymond Buckland, Raven Grimassi, Patricia Telesco, Jesse Wolf Hardin, Morning Glory Zell-Ravenheart, and many more into a modern-day “Grey Council” to publish for the first time everything an aspiring wizard needs to know. Lurking within the pages of Grimoire for the Apprentice Wizard are: Biographies of famous wizards of history and legend Detailed descriptions of magickal tools and regalia (with full instructions for making them) Rites and rituals for special occasions A bestiary of mythical creatures The Laws of Magick Myths and stories of gods and heroes Lore and legends of the stars and constellations Instruction for performing amazing illusions, special effects, and many other wonders of the magical multiverse Praise for Grimoire for the Apprentice Wizard “I can’t think of a better, more qualified person to write a Handbook for Apprentice Wizards. Oberon is a Wizard.” —Raymond Buckland, author of Buckland’s Complete Book of Witchcraft “Oberon is not only extremely learned in the magickal arts but he communicates that knowledge with wit and charm.” —Fiona Horne, author of Witch: A Magickal Journey and star of Mad, Mad, Mad House

The House in the Woods

Drawing on recent scholarship on the history of Western esotericism and religious studies on the importance of millenarian thought in Early Modern Europe, this study provides an innovative re-examination of Peter the Great's Court in early eighteenth-century Russia.

The Secret History of the World

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

The Tradescants

There are those within the Order of Hermes who transmit secrets of magic incomprehensible to outsiders. Pre-eminent among them are the four Mystery Cult Houses, gatherings of magi Initiated into the same Mysteries. This book details the Mystery Cults, including full details of their Inner Mysteries. House Bjornaer venerates animal ancestors, and strives to perfect the form. Their Mysteries enhance the heartbeast, ultimately allowing the magus to unlock mythic forms. House Criamon follow ancient teachings and seek escape from time itself. The many paths that they walk to this end grant powers that can include immortality. House Merinita move among the faeries, ultimately joining them. Their spells can draw on faerie glamour, awaken the fay slumbering around them, or inflict curses on those who break their promises. House Verditius crafts the greatest items, putting a little of themselves into their

finest creations. Pride in their creations is often their downfall, and these magi are terribly prone to the most deadly sin.

In this 13th edition of "Adventuring with Books," teachers and librarians will find descriptions of more than 850 texts (published between 1999 and 2001) suitable for student use in background research, unit study, or pleasure reading, and children will find books that delight, amuse, and entertain. The texts described in the book are divided into 24 general topics, including Science Nonfiction; Struggle and Survival; Fantasy Literature; Sports; Games and Hobbies; and Mathematics in Our World. To highlight literature that reflects the schools' multiple ethnicities, the booklist also introduces readers to recent literature that celebrates African American, Asian and Pacific Island, Hispanic American, and indigenous cultures. Each chapter begins with a brief list of selection criteria, a streamlined list of all annotated titles in that chapter, and an introduction in which chapter editors discuss their criteria and the status of available books in that subject area. While the reviews were written by adults, the voices and opinions of children are often included as well, lending credence to adult choices of the quality children's books. (NKA).

Follow the exciting adventures of Princess Katie and the magical unicorn, Blue, as they explore the enchanted magical forest and the kingdom of Waxshire! On the outside, Katie seemed to have it all-she was, after all, she was a princess, had wonderful, doting parents who ruled an entire kingdom, as well as her adorable sister and a courtroom full of admirers. But deep down, she was lonely. All Katie ever wanted is a true friend she could share her deepest feelings with, and while her father's court was full of royalty like her, they were all superficial and wanted to befriend her because of her status. When she sneaked away from the comfort of her home into the forest to spend some time alone, she would inadvertently venture into the enchanted magical forest, spurred on by the most melodious sound she'd ever heard. That was where she discovers Blue, a stunning unicorn created from magic. Blue and Princess Katie would go on to become the very best of friends, as they were kindred spirits which was the reason the princess was able to hear the unicorn. They would both go on to have amazing adventures, from helping Blue find out about his past and learning how to harness his magical gift, to a run-in with a swamp witch, and much more! Filled with memorable characters and an intriguing, unique plot for each chapter that ties together wonderfully, The Magic Unicorn and the Beautiful Princess by Sarah Doll is a page-turner that is sure to keep your children's imagination engaged!

When spring finally comes around, and the other unicorns return, Margaret's takes her small friend back to his family... but these two won't forget one another.
