Awarded the Nobel Prize for Literature in 1969, Samuel Beckett's influence on 20th century fiction and drama is immeasurable. Published in conjunction with the RT (Radio Telefís Éireann) Thomas Davis Lecture Series to mark the centenary of Beckett's birth, Samuel Beckett - 100 Years consists of thirteen essays by many of the foremost academics studying Beckett today. Literary luminaries such as John Banville and Anthony Cronin line up alongside philosophers Dermot Moran and Richard Kearney to delve into the psyche of the man responsible for classics such as *Murphy*, *Krapp's Last Tape*, and *Waiting for Godot*, while actors Barry McGovern and Rosemary Pountney describe what makes his works so theatrical. The book is a challenging and serious look at Beckett's work and its impact on literature today.

Capitalism From Within

Japan's stunning metamorphosis from an isolated feudal regime to a major industrial power over the course of the nineteenth and early twentieth centuries has long fascinated and vexed historians. In this study, David L. Howell looks beyond the institutional and technological changes that followed Japan's reopening to the West to probe the indigenous origins of Japanese capitalism.

This unique book introduces the biological and ecological basis of the production process in water, and the biology of cultured species. It bridges the gap between research data and aquaculture techniques, and covers problems arising in aquaculture production, such as filtering molluscs. It also introduced modern aspects of oceanography that are important for understanding the production process. The book starts with a section dedicated to the production of living material and matter in the aquatic environment. It then goes on to explore in detail the biological basis of mollusc, crustacean and fish cultures, and the reproduction and nutrition of bivalve molluscs. Also discussed are the intensive and extensive aquaculture producing processes in fresh and marine waters, and finally the pathology reared animals. Up-to-date data are provided and explained to the student using graphs and copious illustrations. The work is especially orientated toward the student reader and provides a comprehensive and authoritative text on the subject.

"This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain."--Jacket.

More relevant than ever, this seminal collection of essays encourages us to believe in the power of ordinary citizens to change the world In today's turbulent world it's hard not to feel like we're going backwards; after decades of striving, justice and equality still seem like far off goals. What keeps us going when times get tough? How have the leaders and unsung heroes of world-changing political movements persevered in the face of cynicism, fear, and seemingly overwhelming odds? In The Impossible Will Take a Little While, they answer these questions in their own words, creating a conversation among some of the most visionary and eloquent voices of our times. Today, more than ever, we need their words and their wisdom. In this revised edition, Paul Rogat Loeb has comprehensively updated this classic work on what it's like to go up against Goliath -- whether South African apartheid, Mississippi segregation, Middle East dictatorships, or the corporations driving global

climate change. Without sugarcoating the obstacles, these stories inspire hope to keep moving forward. Think of this book as a conversation among some of the most visionary and eloquent voices of our times -- or any time: Contributors include Maya Angelou, Diane Ackerman, Marian Wright Edelman, Wael Ghonim, Váav Havel, Paul Hawken, Seamus Heaney, Jonathan Kozol, Tony Kushner, Audre Lorde, Nelson Mandela, Bill McKibben, Bill Moyers, Pablo Neruda, Mary Pipher, Arundhati Roy, Dan Savage, Desmond Tutu, Alice Walker, Cornel West, Terry Tempest Williams, and Howard Zinn.

Only Lukas Hawthorne could simultaneously break my spirit, crush my dreams...and make me dripping wet. He's a legend on campus-a star athlete with records that'll never be broken. I always see him on campus walking around with some new hot piece of ass, and I dream about what it would be like to be the one on his arm...It's totally unfair to have such an effortlessly handsome grad student as my TA. Who knew economic theory could be so sexy? Problem is, I've been so distracted by him all semester that now I'm failing his course, and I need pass if I hope to graduate on time. He wants to meet with me after class, to discuss how I can make up my grade this summer...extra assignments, private lessons...whatever it takes. But when a disgusting realization is made-our student-teacher sex sessions are permanently interrupted. Our parents are engaged. They're madly in love and can't wait to make me, Lukas, and all of our siblings one big happy family. To make matters worse, we have to endure a family vacation at his father's lake house. Together. A million miles away from everything. Thing is, the more inappropriate my desire is for him, the more intensely it burns...and he isn't shy about meeting me halfway. According to him, we're going to defile every room and every surface of his father's house before we go back to school. Challenge accepted.
