Schizophrenia is one of the most enigmatic mental disorders, and language is one of its most essential and distinctive traits. *Language and Schizophrenia* provides a complete overview of schizophrenic language, utilising both psychological and philosophical perspectives to explore the unique way language impacts on this mental disorder. *Language and Schizophrenia* investigates specific features of schizophrenic language using cognitive psychology alongside the opposing field of phenomenological psychiatry, concluding that neither of these approaches fully succeeds in explaining the linguistic features unique to Schizophrenia. Cardella's innovative approach of combining psychological perspectives with philosophy offers a direct alternative to traditional cognitive perspectives, emphasising the fundamental role that language plays in the disorder. This book provides a thorough analysis of the deep link between language and schizophrenia and will be of great value to researchers and postgraduates studying schizophrenia, phenomenology, neuropsychology and philosophy of language.

A Little Less than Kin . . . From childhood, Lady Margaret Carlisle's life has been entwined with the rich, powerful, and contentious Lyons family, until her intended's untimely death five years ago. Now a widow, she finds herself drawn into their intrigues once more . . . and unexpectedly tempted by a brilliant, lonely man, whose friendship she has long taken for granted. And *More than Kind . . .* They call him the Clockwork Solicitor, the perfect lawyerly device. But the icy demeanor of Lord Gervase Lyons conceals a vulnerable heart-and an undying passion for the one woman he can never have: his dead brother's fiancée. Summoned to his family's Christmas gathering, where old wounds will be reopened, old quarrels revisited, and old secrets revealed, Gervase receives the chance to win her love at last."

Winner of 8 Book Awards in Literary Fiction Intrigue on the white sands of the Indian Ocean. From the award-winning author of Clifford's Spiral. A lonely widower from Los Angeles buys a tour package to East Africa on the promise of hookups and parties. What he finds instead are new reasons to live. Aldo Barbieri, a slick Italian tour operator, convinces Harry to join a group of adventuresome "voluntourists." In a resort town on the Indian Ocean, Harry doesn't find the promised excitement with local ladies. But in the supermarket he meets Esther Mwemba, a demure widow who works as a bookkeeper. The attraction is strong and mutual, but Harry gets worried when he finds out that Esther and Aldo have a history. They introduce him to Victor Skebelsky, rumored to be the meanest man in town. Skebelsky has a plan to convert his grand colonial home and residential compound into a rehab center – as a tax dodge. The scheme calls for Harry to head up the charity. He could live like a wealthy diplomat and it won't cost him a shilling! Harry has to come to terms with questions at the heart of his character: Is corruption a fact of life everywhere? Is all love transactional? Harry Harambee's Kenyan Sundowner is an emotional story of expat intrigue in Africa, reminiscent of The Heart of the Matter by Graham Greene and The Constant Gardener by John le Carré.

A new and incisive analysis of the political viability of human rights, with an in-depth investigation of its largest violation: world hunger. Gonzalez-Pelaez develops John Vincent's theory of basic human rights within the context of the international political economy and demonstrates how the right to food has become an international norm enshrined within international law. She then assesses the international normative and practical dimensions of hunger in connection with international trade and poverty. Using the society of states as the framework of analysis, she explores the potential that the current system has to correct its own anomalies, and examines the measures that can move the hunger agenda forward in order to break through its current stagnation.

It was the closest we ever came to unleashing the Third World War.... The image of that world was so horrible to contemplate that both sides stepped away from that precipice and opted for peace. Fires of October is the exhilarating military history of the Cuban Missile Crisis exploring in detail the strategic plans implemented by American Armed Forces as they headed towards a catastrophic nuclear collision with Cuba and the USSR. Using recently declassified material, Blaine Pardoe systematically recounts the origins of the crisis, from the Berlin Crisis of 1961 and Cuba's military metamorphosis, to the internal disorganization of the US military, which exacerbated tensions between the USA, Cuba, and the USSR. Pardoe reveals that the invasion plans were based on old intelligence, outdated maps, and misconceptions about the size, strength, and composition of the Soviet forces in Cuba; for the first time, and with harrowing results, he scrutinizes the potential fallout had the invasion gone ahead. Gripping and unnerving, Fires of October shows us just how close the world came to nuclear war.
